

More Trains, More Services

Shellharbour Junction

Transport for NSW | April 2022

More Trains, More Services

The More Trains, More Services program is upgrading the rail network to support the introduction of the Mariyung fleet. As part of the program, we are extending the platforms at Shellharbour Junction Station so customers can safely access all carriages on the new fleet of longer trains.

We have moved in

We have moved in and have set up our site compound in the northern end of the commuter car park. The site compound will be operational during standard construction hours and used for sheds, material storage and construction vehicle parking. For improved safety, visual amenity and dust contamination, this area has been delineated with shade cloth. We have also completed the construction of new corridor access roads off the Princes Highway and Piper Drive to facilitate safe movement of construction vehicles for future project work.

What's next at Shellharbour?

In April, construction at Shellharbour will primarily involve concrete piling work on the southern ends of Platform 1/2 in preparation for extension work later this year.

Construction hours

From 1 April 2022, COVID-19 construction hours will end, and standard construction hours will revert back to **7am-6pm Monday to Friday and 8am-1pm on Saturdays**.
