

More Trains, More Services

February 2023

Shellharbour Platform Extension Project

Transport for NSW acknowledges the Dharawal people as the Traditional Custodians of the Illawarra and pay respects to Elders past and present. We recognise & celebrate the diversity of Aboriginal peoples and their ongoing cultures & connections to the lands and waters of NSW.

More Trains, More Services

The More Trains, More Services program is delivering platform extensions and rail asset upgrades between Sydney's CBD and the South Coast to support the introduction of the Mariyung fleet. This program will simplify and modernise the rail network, creating high capacity, turn up and go services for many customers.

Construction completion

At Shellharbour Junction Station, we have extended the platforms by 30 metres and upgraded rail assets to support the introduction of the Mariyung fleet. During February we will be completing minor finishing work. All construction activities will be completed during standard construction hours and is not expected to impact residents.
