

More Trains, More Services Shellharbour Junction Station

Transport for NSW | June – August 2022

More Trains, More Services

The More Trains, More Services program is upgrading the rail network to support the introduction of the Mariyung fleet. As part of the program, we are extending the platforms at Shellharbour Junction Station so customers can safely access all carriages on the new fleet of longer trains.

What's next at Shellharbour?

In the coming months, work at Shellharbour will involve steel and concrete activities on the southern ends of Platform 1 & 2 in preparation for the platform extensions later this year.

Activities include:

- Piling work
- Steel reinforcement and concrete work
- Formwork for the future platform extension.

Construction hours

In June, some activities are required to take place outside of standard construction hours.

This work has been scheduled to take place during a Sydney Trains trackwork period when no trains are running, minimising disruptions to commuter services and improving the safety of our construction team and customers.

Night work will be carried out between **6pm Friday 17 June** and **7am Monday 20 June**.

Some minor activities like transferring construction machinery between tracks may also be required to take place at night, however this work is not expected to impact the community. We will contact you directly if out of hours work is anticipated to be noticeable at your address.

How can we better communicate with you?

We strive to develop and maintain strong relationships with our closest neighbours, businesses, customers and stakeholders within the communities in which we work. We would like your feedback on the way we keep you informed about construction activities. If you would like to provide your feedback, please scan the QR code below or visit yoursay.transport.nsw.gov.au/community-engagement
