

More Trains, More Services

Shellharbour

Transport for NSW | September - November 2022

Concrete pour being undertaken at Shellharbour Junction Station for platform extension work in June 2022

More Trains, More Services

The More Trains, More Services program is upgrading the rail network to support the introduction of the Mariyung fleet.

As part of the program, we are extending the platforms at Shellharbour Junction Station so customers can safely access all carriages on the new fleet of longer trains.

What's next in Shellharbour?

In the coming months, we will continue steel and concrete activities on the southern ends of Platform 1 & 2.

Activities will include:

- installing temporary framework structures to support platform extensions
- steel reinforcement and concrete pouring
- hydraulic works
- extending the existing platform fencing.

Construction hours

Standard construction hours on this project are **7am until 6pm Monday to Friday and 8am until 1pm on Saturdays**.

Upcoming night work

At the end of September, some activities are required to take place outside of standard construction hours.

This work has been scheduled to take place during a Sydney Trains trackwork period when no trains are running, minimising disruptions to commuter services and improving the safety of our construction team and customers.

Night work will be carried out between **6pm Friday 30 September until 7am Monday 3 October**.

Some minor activities like transferring construction machinery between tracks may also be required to take place at night, however this work is not expected to impact the community.

We will contact you directly if out of hours work is anticipated to be noticeable at your address.

We are phasing out paper notifications

In 2018, Australia generated 5.9 million tonnes of paper and cardboard waste.

We are committed to integrating sustainable practices into our projects and reducing environmental impacts.

By 2023, we will no longer be distributing hard copy notifications to residents on this project unless requested.

Instead, we will be digitally distributing construction updates to project-specific email lists.

To help us reduce paper waste, please visit yoursay.transport.nsw.gov.au/mtms-shellharbour or scan the QR code below to complete a 2-question survey and let us know if you would prefer to receive our updates in your inbox instead of your mailbox. We will consider no response as support to minimise our environmental footprint and phase out paper notifications.

We will continue to remind you of this transition once more through a hard-copy notification in December and plan to go entirely digital from January 2023.

If our work is anticipated to impact your property and we don't have your contact details, we will still distribute a paper notification to your address to ensure you are aware of upcoming activities.
