

St Peters Station Upgrade Community Update

Transport Access Program

December 2023 - January 2024

Transport for NSW acknowledges the Gadigal and Wangal people of the Eora Nation as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

The St Peters Station Upgrade is delivered as part of the Transport Access Program. The upgrade will provide a station precinct that is accessible to people with disability, limited mobility, parents/carers with prams and passengers with luggage.

What work are we doing in December and January?

Work includes:

- Testing and commissioning of the new lifts
- Cleaning works
- Rectification and finishing work
- Removing site materials and storage units
- Updating closed circuit television components and additional Opal Card Reader installations.
- Defect rectification works

When we'll be working

Work at the station continues up until **22 December** and then resumes **8 January to 31 January 2024**:

**Monday to Friday, 7am to 6pm, and
8am to 1pm on Saturdays.**

Out of hours work

Currently, no out of hours work is planned for January.

What will this mean for you?

You may notice:

- Intermittent periods of high noise
- Increase in construction traffic
- Traffic control and signage
- Workers and vehicles around the station.

The station master's office and the existing toilet facilities on the footbridge remain closed.

Changes to scheduled work

Work schedules are subject to change due to permits, weather, and site conditions. Further notification will be provided should there be a significant change to the construction program.

Managing our impacts

We aim to manage our work to minimise impacts to the community and the environment.

This includes:

- Reducing our noise as much as possible

- The use of noise blankets where possible, replacing reversing beepers with clickers
- Traffic control and signage
- Directional lighting pointed away from residential properties wherever possible.
