Stanmore Station Upgrade

April 2023

Transport for NSW acknowledges the Gadigal and Wangal people of the Eora Nation as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

The Stanmore Station Upgrade is delivered as part of the Transport Access Program

What work are we doing?

Work includes:

- Installing drainage in the underpass
- Concreting for lift shafts 1 and 2
- Excavating on Platforms 1 and 2
- Constructing a retaining wall and stairs on Trafalgar Street
- Upgrading the family-accessible toilet

When and where we'll be working

We'll be working at the station and at the site compound at 76 Railway Avenue. Standard working hours are **7am to 6pm, Monday to Friday**, and **7am to 1pm, Saturday**.

What will this mean for you?

- Intermittent periods of high noise from machinery and equipment
- Increased truck movements traffic controllers and signage for lane and road closures
- Parking restrictions: Five car spaces on Trafalgar Street and three car spaces on Douglas Street will be unavailable

Out of Hours Work

Some activities are required to be undertaken outside of our standard work hours during a scheduled Sydney Trains trackwork period.

We will be working;

- **Saturday 22 April** and **Sunday 23 April** from **6am** until **6pm**
- **Saturday 29 April** from **12:00am** until **Monday 1 May 12:00am** (Friday night to Sunday night)

Upgrading the station underpass

During the weekend of Saturday 29 April to Monday 1 May we will be undertaking works to upgrade the station underpass.

The underpass will be temporarily closed during this time. A shuttlebus will operate to ferry passengers to Douglas Street.

Trafalgar street will also be temporarily closed and detours will be in place.

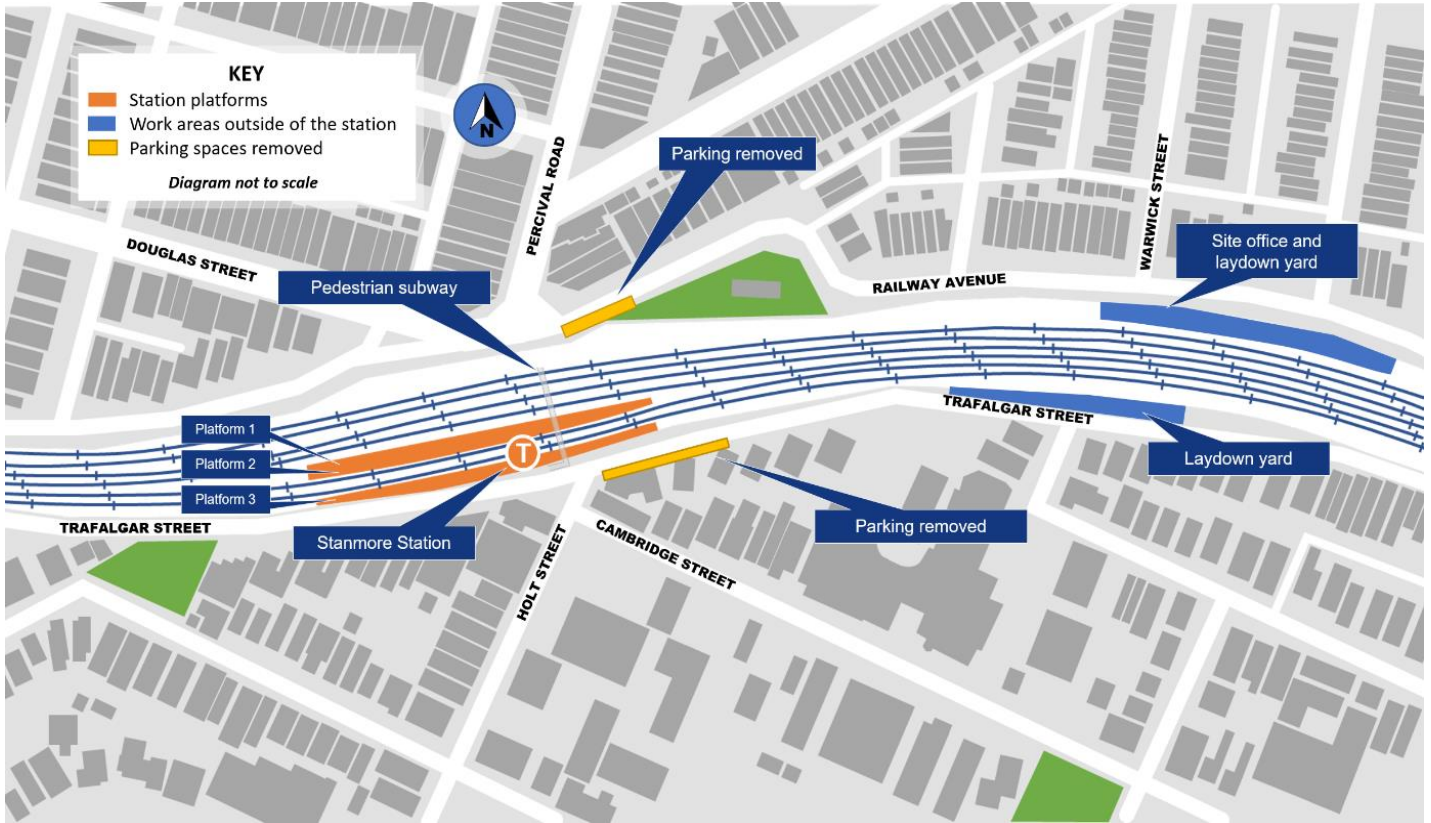

Further details of the underpass and Trafalgar Street closures will be provided closer to the date of works.

Managing our impacts

We aim to manage our work to avoid impacts to the community and the environment. This includes turning vehicles off when not in use, reducing noise wherever possible and targeted lighting to minimise light spill
