

Sydney Terminal Area Reconfiguration Project - Erskineville

More Trains, More Services

August - September 2023

Transport for NSW acknowledges the Gadigal people of the Eora Nation as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

The More Trains, More Services program will simplify and modernise the rail network creating high capacity, turn up and go services for many customers.

Project update

For the past three years we have been upgrading rail infrastructure in Erskineville.

Work inside the rail corridor

We are pleased to share that our work inside the rail corridor is currently planned to finish in late July. We thank you for your patience to date.

Work at our site compounds

We will continue to use the site compounds at 136 Railway Parade and Macdonaldtown Stabling Yard for the foreseeable future. These will be used for deliveries, storage of materials and equipment, offices, pre-start work meetings and parking while we are working in other locations as part of the More Trains, More Services program.

What work are we doing?

In August and September 2023 you may notice work and deliveries to our site compounds.

When we'll be working

Standard construction hours are between **7am and 6pm Monday to Friday and 8am and 1pm on Saturdays.**

Some work and deliveries will take place outside of standard construction hours from:

- **10pm Friday 4 August to 2am Monday 7 August 2023**
- **10pm Friday 18 August to 2am Monday 21 August 2023**

We are going paperless

Soon we'll no longer be distributing paper notifications (unless requested) to reduce our environmental impacts.

Instead, we will contact you via email when there is work or deliveries that may impact you.

If you haven't already registered, please scan the QR code and fill out the form.

If you wish to continue to receive paper notifications, you can request this via the QR code or call us at 1800 684 490.

Thank you to residents who have already registered.

- **10pm Friday 8 September to 2am Monday 11 September 2023.**

Why we work outside of standard construction hours

We aim to work during standard construction hours where possible.

At times, the compounds at 136 Railway Parade and Macdonaldtown Stabling Yard will be used to store materials and equipment when we are doing rail work in other locations, such as Eveleigh or Homebush. For safety reasons, work in these locations typically takes place during scheduled trackwork periods when no trains are running.

Location of work

What will this mean for you?

You may notice:

- an increase in workers and vehicles
- deliveries of machinery and equipment
- noise from work and deliveries
- lighting from temporary lighting towers.

Managing our impacts

We understand our work may cause disruption for the community. We will seek to minimise impacts as much as possible and adhere to strict environmental conditions relating to noise, vibration and dust management.
