

Sydney Terminal Area Reconfiguration – Central Station

More Trains, More Services

October and November 2023

Transport for NSW acknowledges the Gadigal people of the Eora Nation as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

The More Trains, More Services program is simplifying and modernising the rail network creating high capacity, turn up and go services for many customers.

Upgrades to rail infrastructure are underway to support the introduction of the new fleet of trains that will access platforms 1 to 14 at Central Station. We are also integrating Sydney Metro City and Southwest into Sydney's train network.

What work are we doing?

In October and November 2023, we will be:

- removing redundant cable and installing cabling routes
- installing overhead wiring infrastructure
- completing site survey and investigation activities, including geotechnical activities such as non-destructive digging
- track and signalling reconfiguration work
- site compound modification work

When and where we'll be working

In October and November 2023, work will take place inside our site compounds and the rail corridor as shown in the map printed on the back page of this notification.

Standard construction hours are between **7am and 6pm Monday to Friday and 8am and 1pm on Saturdays.**

Out of hours work and deliveries

Some work and deliveries are required to take place outside of standard construction hours between:

- **6pm Monday 23 October and 7am Friday 27 October 2023**
- **10pm Friday 27 October and 7am Monday 30 October 2023.**

Why we work outside of standard construction hours

We schedule work outside of standard construction hours to take place during Sydney Trains trackwork periods when no trains are running, minimising disruptions to commuter services and improving the safety of our construction team and customers.

What will this mean for you?

You may notice:

- workers and vehicles, including crane trucks and excavators
- lighting from temporary lighting towers
- noise from machinery and equipment.

Managing our impacts

We understand construction activities may cause disruption to our closest neighbours, and every effort will be made to minimise the impacts where possible, including:

- turning off equipment when not in use and using non-tonal reversing alarms to reduce potential noise impacts
- locating equipment as far away from residents and businesses as possible
- directing lighting away from residents
- conducting on-site monitoring to ensure compliance with strict environmental conditions relating to noise, vibration and dust management.

Location of work

24/7 Work in December 2023

In December, we will be working 24/7 from **Friday 22 December until Sunday 31 December 2023** (inaudible work on Monday 25 December).

We will distribute more information about our planned activities and mitigation measures closer to the date.

If you have any questions or would like further information, please contact us through the details below.

We are going paperless

We are committed to reducing our paper usage and environmental impacts.

Soon we will no longer be distributing paper notifications to residents (unless requested). Instead, we will contact you via email when there is construction work that may impact you.

If you haven't already, please scan the QR code and fill out the form to register.

If you wish to continue to receive paper notifications, you can request this via the QR code or call us at

1800 684 490.
