

## More Trains, More Services

### T8 Line Power Supply Upgrade Project

Transport for NSW | April 2022

#### What are we doing?

We are upgrading the power supply to support the introduction of the new fleet of trains operating along the T8 Airport Line. It will also future-proof the connection to the Sydney Trains network, allowing more trains and services to be available to customers.

Upgrades to the power supply are along the T8 Airport Line tunnel from Central to Wollie Creek Junction.

#### What's been happening?

Recently the Project Team carried out cable, overhead wiring, and utility installations from the Chalmers Street tunnel portal inside the T8 Airport Line Tunnel.

#### What's planned next?

During April, we will carry out the following activities:

- deliveries of oversized rail infrastructure
- signalling installations
- cable and utility installations.

#### Are there activities planned outside of standard construction hours?

To minimise disruption to customers, and to improve the safety of workers and the community, oversize delivery and pick up of rail infrastructure, will take place from the Chalmers Street access point:

- **Between 7pm to 5am Tuesday 26 April through to Wednesday 4 May.**

Some construction work will also be completed outside of standard construction hours inside the T8 Airport Line tunnel as part of a scheduled Sydney Trains trackwork period when no trains will be running. The project team will be accessing the tunnel from the Chalmers and Gibbons streets access points:

- **Between 7pm to 5am Wednesday 27 April through to Friday 29 April**
- **Between 1am, Saturday 30 April through to 2am, Monday 2 May.**

- **Between 7pm to 5am Monday 2 May through to Wednesday 4 May.**

## Where will work take place?

The above map shows work will take place inside the T8 Line tunnel and the Gibbons Street site access point.

## How do we consider the community?

The project team understands construction activities may cause disruption for the community. We will seek to minimise impacts as much as possible and adhere to strict environmental conditions relating to noise, vibration and dust management.

## How are we staying safe?

We continue to deliver projects across NSW while ensuring the safety of all staff and the community. All work will be carry out in line with current Australian Government guidelines around slowing the spread of COVID-19.

## There's a lot happening

Currently there are multiple project teams, transport agencies and contractors working within the T8 Airport Line tunnel. For more information on work completed by Sydney Trains, please contact 1300 656 999, or visit [www.transport.nsw.gov.au/sydneytraincommunity](http://www.transport.nsw.gov.au/sydneytraincommunity)
