

## More Trains, More Services

### T8 Airport Line Power Supply Upgrade Project

Transport for NSW | August and September 2022

#### What are we doing?

We are upgrading the power supply to support the introduction of the new fleet of trains operating along the T8 Airport Line. It will also future-proof the connection to the Sydney Trains network, allowing more trains and services to be available to customers.

Upgrades to the power supply are along the T8 Airport Line tunnel from Central to Wolli Creek Junction.

#### What's been happening?

Recently the project team carried out cable, overhead wiring and utility installations inside the T8 Airport Line Tunnel.

#### What's planned next?

During August and September, we will have a number of oversized rail infrastructure deliveries to the Gibbons Street site access point in Redfern (located between Marian and Regent streets).

Work being undertaken inside the T8 Airport Line tunnel

#### Out-of-hours construction work

To minimise disruption to customers and for the safety of the community and workers, delivery and pick up of oversized rail infrastructure will take place outside of standard construction hours **from 7pm to 5am:**

- **From Wednesday 24 August through to Wednesday 31 August**
- **From Wednesday 7 September through to Wednesday 14 September.**

#### Traffic changes

In connection with the oversized deliveries, there will be traffic changes on Gibbons Street between Marian and Regent streets.

The inside lane travelling northbound along Gibbons Street will be closed on the dates and times outlined above.

Traffic control will be in place to direct motorists to merge into the two northbound lanes that will remain open. Please refer to the map overleaf.

**KEY**

- Gibbons St inside lane road closure (northbound traffic maintained under traffic control)
- Gibbons St site access point

## Where will the deliveries take place?

The map above shows deliveries will take place via the Gibbons Street site access point, between Marian and Regent streets.

## How do we consider the community?

The project team understands construction activities may cause disruption for the community. We will seek to minimise impacts as much as possible and adhere to strict environmental conditions relating to noise, vibration and dust management.

## There's a lot happening

Currently there are multiple project teams, transport agencies and contractors working within the rail corridor. For more information on work being completed by Sydney Trains, please phone 1300 656 999 or visit
