

# Transport Access Program

## Taree Train Station Upgrade

Project update

November 2022

### The NSW Government is improving accessibility at Taree Train Station

**The construction tender has been awarded to Abi Civil Pty Ltd and construction is soon to start on the accessibility upgrade at Taree Station.**

The NSW Government is improving accessibility at Taree Station as part of the Transport Access Program. The project will take about six months to complete, weather permitting.

The community was invited to comment on the project's [concept design](#), with all responses helping Transport to understand what is important to customers and the community. As a result, some minor changes were made to the final design.

The Transport Access Program is a NSW Government initiative to provide a better experience for public transport customers by delivering accessible, modern, secure and integrated transport infrastructure across the state

The Taree Station Upgrade will provide a station that is accessible to those with a disability, limited mobility, and parents/carers with prams and customers with luggage.

#### Key benefits

The project will provide a station precinct that is accessible to people with a disability, limited mobility, parents/carers with prams and customers with luggage.

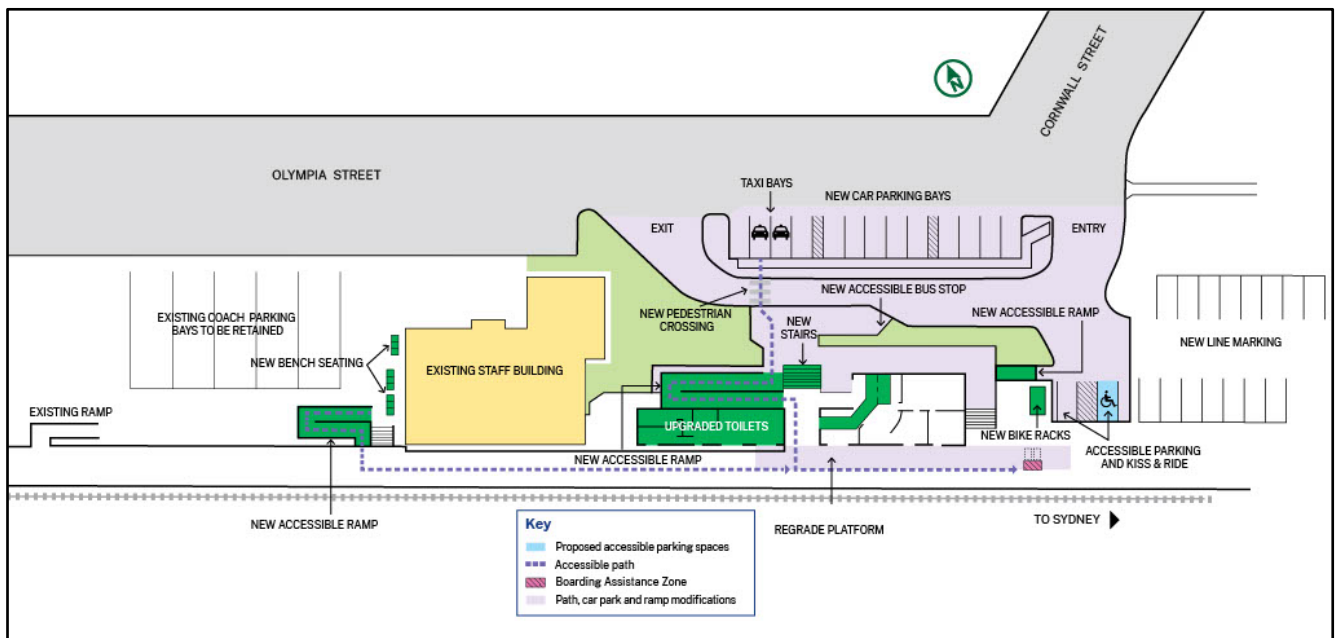

##### Key benefits

- a new ramp to the platform
- upgrades to footpaths and walkways between the platform and car park
- upgrade the two existing accessible car spaces
- modifications to the waiting room and ticket counter
- improved amenities including a Family Accessible toilet and ambulant toilets
- install tactile indicators along the platform
- improve lighting and wayfinding.
