

# Thornleigh Station Upgrade

## Community notification February 2023

The Thornleigh Station Upgrade is part of the Transport Access Program, a NSW Government initiative to provide a station that is accessible to people with a disability, limited mobility, parents / carers with prams, and customers with luggage.

### What's next at Thornleigh in February?

Our work will include:

- new lift fit outs
- upgrading Railway Parade
- landscaping work on The Esplanade
- resurfacing the commuter car park.

### Upcoming work in February

Work will continue **Monday to Friday from 7am until 6pm**, and **from 8am until 1pm on Saturdays**.

We will be working outside of standard construction hours from **6am Saturday 18 February until 6pm Sunday 19 February** to allow for resurfacing work within the commuter car park to be carried out.

We will also be carrying out some additional out of hours work in February and March as part of the upgrade work on Railway Parade. We will be in touch with residents and businesses closer to the date with further information.

### Parking and traffic impacts

During February, **five car parking spaces will remain unavailable on Railway Parade** between Station Street and Bellevue Street.

**Throughout February from 7am and 5pm, Monday to Friday**, a contraflow (stop/go) system will be on Railway Parade to allow for

the new crossing to be completed. Traffic control will be in place to provide directions to pedestrians and motorists.

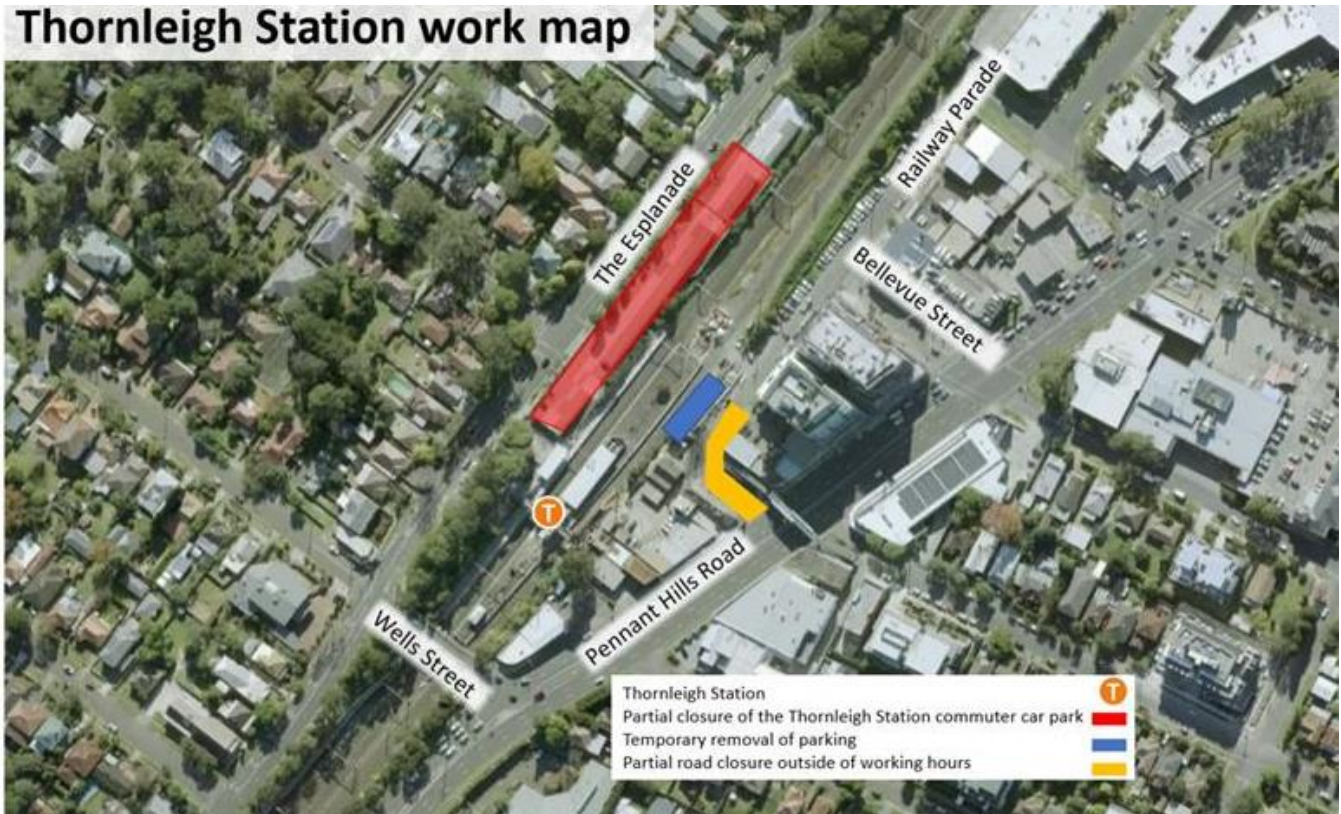

**From Friday 27 January to mid-March**, a partial road closure of Station Street and Railway Parade will be in place **between the hours of 5pm and 7am Monday to Friday**, and **all-day on Saturday and Sunday**. Access to businesses and properties will be maintained via Pennant Hills Road, Bellevue Street and Railway Parade.

From **7am Monday 13 February until 6pm Sunday 19 February**, approximately 15 parking spaces at the southern end of the commuter car park will be temporarily unavailable. During this period, **6 accessibility parking spaces will also be temporarily unavailable**. Alternative accessibility parking spaces will be available next to the work area.

From **6am Saturday 18 February until 6pm Sunday 19 February**, the commuter car park will be partially closed to allow for line marking and resurfacing to be carried out. During this period, some parking will be available. A contraflow (stop/go) system will be on The Esplanade to manage vehicles in and out of the car park. Please refer to traffic control and signage for information.

On **Saturday 18 February and Sunday 19 February**, the footpath on The Esplanade, next to the commuter car park will be temporarily closed.

## Thornleigh Station work map

### How this work may affect you

We will be using a range of equipment including excavators, vacuum trucks, road saws, concrete trucks and pumps, elevated working platforms, jackhammers, grinders, cranes, and various hand and power tools.

Our work will be noisy at times. Where possible, measures will be implemented to reduce noise and dust associated with these works, including adding shade cloth mesh to fencing, turning off equipment when not in use, placing equipment as far away as possible from properties and using non-tonal reversing beepers.

### Changes to scheduled work

Work schedules are subject to change due to permits, weather, and site conditions. Further notification will be provided should there be significant changes to the construction program.

**Please register for project updates** so that we can keep you informed about our work. If you require an alternative method of contact, please do not hesitate to let us know.
