

# Safety work on Victoria Road between Pennant and Pemberton streets, Parramatta

## February 2023

Transport for NSW is carrying out pedestrian safety work on Victoria Road between Pennant and Pemberton streets, Parramatta.

Work will include:

- installing concrete medians and pedestrian fencing on Victoria Road to remove the right turns and through movements in and out of Pemberton Street
- intersection works on Victoria Road at Pennant Street, including the installation of signalised pedestrian crossings and associated improvements.

Construction will commence on **Sunday 5 March 2023** and take about five months to complete. We will keep the community updated as the project progresses.

From Sunday 5 March, work will commence on installing concrete medians and pedestrian fencing on Victoria Road. The map below shows the location of the work and detours.

To finish the project as quickly as possible, and limit our impact on the local community, we will be working up to five nights a week. If you have any questions about the project, or the night work schedule, please contact the Fulton Hogan River Zone Community Team.

## Our work schedule

Between **Sunday 5 March** and **Saturday 6 May 2023** we will be on site for up to **30 shifts**, weather permitting. Our work hours will be from **8pm to 5am** from Sunday to Friday. We will work up to five nights a week to get the work done as quickly as possible. There will be no work on Saturdays (after 5am) or Sundays (before 8pm) or public holidays.

The community will be provided with a project update and work schedule for May to July work activities in April 2023.

## How will the work affect you?

Our work needs to be carried out at night to minimise disruption to traffic and reduce safety risks to our workers, pedestrians and motorists. It may be noisy at times, but we will do everything we can to minimise noise impacts, including using quieter equipment where we can, turning off equipment and vehicles when they are not in use and completing the noisier tasks, such as jackhammering and saw cutting before midnight.

## Detours

Detours will be in place from Sunday 5 March.

- for access to the southern side of Victoria Road, motorists are asked to use Macarthur Street
- for access to the northern side of Victoria Road, motorists are asked to use James Ruse Drive and Pennant Street.

The alternative routes may add up to four minutes to travel times. Traffic monitoring will be undertaken to understand the impact of these detours during construction.

## Traffic changes

There will be temporary traffic changes to make sure the work zone is safe. Lane closures will be in place and may affect travel times.

Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit [livetraffic.com](http://livetraffic.com) or download the Live Traffic NSW App.

For further information visit the project webpage by scanning the QR code. To receive email alerts please contact our delivery partner, Fulton Hogan on 1800 568 981 or at [info.river@fultonhogan.com.au](mailto:info.river@fultonhogan.com.au).

Transport for NSW thanks the community for their patience while we complete this work.
