

# Henry Lawson Drive Upgrade Stage 1A

## Project Update

December 2023 – February 2024

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

Transport for NSW is upgrading Henry Lawson Drive, between Tower Road, Bankstown Aerodrome and Auld Avenue, Milperra.

### What work are we doing?

During standard work hours, the following work will occur:

- Removal of old electrical infrastructure
- Commence roadwork and drainage work south of the Milperra Road, Newbridge Road and Henry Lawson Drive intersection
- Roadworks north of Henry Lawson Drive, near Tower Road
- Trenching works for services and utilities.

Our night time work will include:

- Adjustment to existing traffic lanes and traffic flow
- Adjustment and installation of temporary traffic lights at the intersection
- Installation of stormwater drainage across existing roads
- Pavement demolition and reinstatement
- Excavation and filling for the road widening
- Large excavation for drainage work north of Tower Road into Georges River.

### When and where we'll be working

Our normal work hours will be between **7am and 6pm** from **Monday to Friday** and between **8am and 1pm** on Saturday. We will not work on Sundays and during public holidays.

Our night work hours will be **Sunday to Thursday** from **8pm to 5am** the next day to minimise traffic

disruptions and reduce safety risks to workers and road users. Traffic switches may occur on Friday nights due to road restrictions.

When required, we will work up to five nights per week, weather permitting, and excluding public holidays. We will contact those residents directly impacted by night works in advance.

### What will this mean for you?

We will be modifying traffic conditions to facilitate future construction work on Henry Lawson Drive and Milperra, Tower and Newbridge Roads.

Closure of the shared pedestrian and cycle path from the intersection of Henry Lawson Drive heading south to Auld Avenue will continue. Cyclists will be required to dismount due to narrow pathway conditions.

You may notice increased activity in the area, including:

- Workers and vehicles
- Traffic controllers and signage
- Lane closures and reduced speed limits
- Footpath closures
- Pedestrian and cyclist detours
- Noise from machinery and equipment
- Temporary changes to traffic lane configurations across the project.

## Managing our impacts

We will make every effort to minimise impacts to the local community and motorists in the area by keeping noise to a minimum and directing lights away from residential areas, wherever possible.

For the latest traffic updates, call 132 701, visit [livetraffic.com](http://livetraffic.com) or download the Live Traffic NSW app.

Henry Lawson Drive, Milperra
