

Waitara Station Upgrade

Transport Access Program

December 2023

Transport for NSW acknowledges the people of the Dharug and Guringai Nations as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

Transport for NSW is upgrading Waitara Station as part of the Transport Access Program to make it easier for everyone to access, including people with a disability or limited mobility, parents/carers with prams and passengers with luggage.

What work are we doing?

Work planned for December includes:

- line marking and finishing work at the new Alexandria Parade pedestrian crossing
- architectural finishes within the new underpass and staircases including completing the installation of the new curved ceiling (pictured over the page)
- electrical and security system upgrades within the new underpass, new stairs and around the station precinct and new platform canopy. Work includes fitting new lights and CCTV security cameras
- fitting out lift shafts
- installing wayfinding and road signage
- installing tactile ground surface indicators and platform furniture on the platform
- upgrading the existing commuter car park and extension including installing drainage, kerbs, paths and landscaping.

When will we be working?

Working hours are **7am to 6pm, Monday to Friday and 8am to 1pm, Saturday**. We will notify nearby residents and businesses in advance if we need to work outside these times.

What will this mean for you?

We will be using a range of equipment including mobile cranes, forklifts, excavators, concrete trucks and pumps, dumpers, elevated work platforms, vacuum trucks, delivery trucks, power tools and hand tools.

Managing our impacts

We will manage our work to avoid impacts to the community and the environment. This includes:

- having traffic control and signage in place
- fencing for safety and security
- reducing our noise as much as possible by turning off equipment when not in use and using non-tonal reversing beepers.

Station car park closure required 7 day closure between 11 - 22 December

To complete the car park upgrade work, we will temporarily **close** the Waitara Avenue **commuter car park** for up to **seven days, weather permitting** between **Monday 11 December and Friday 22 December**.

Please refer to signage on site in advance to assist motorists.

The car park upgrade work includes:

- landscaping in station precinct
- installing pedestrian crossings at the existing station underpass
- installing signage
- resurfacing of the car park including line marking new parking spaces and direction of travel
- installing kerbs and gutters across the commuter car park and driveways.

Upgraded car park opening late December

In late December the upgraded commuter car park will open for use. There will be:

- 42 parking spaces available
- 2 accessible parking spaces available.

An additional 12 parking spaces will open at the completion of the upgrade.

Access points

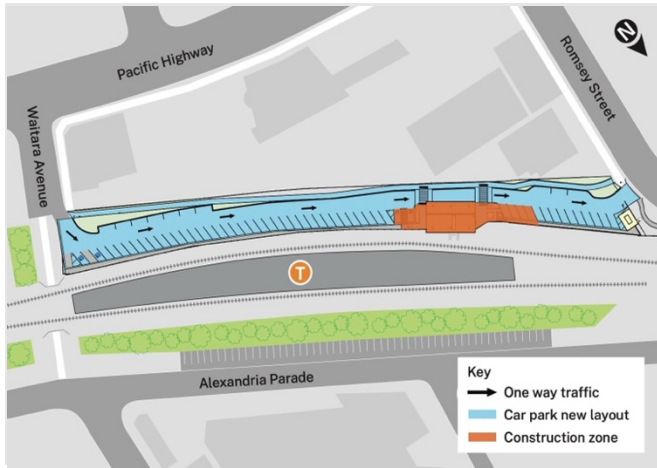

Entry to the commuter car park for motorists will be from Waitara Avenue. Exit from the commuter car park will be to Romsey Street. There is no entry to the commuter car park for motorists from Romsey Street.

The car park will also feature accessible footpaths to and from the existing station underpass.

Note: The new station lifts and new underpass will not be open for use as construction work is still underway.

Thank you for your patience and cooperation while the car park upgrade works were completed.

End of year construction work break

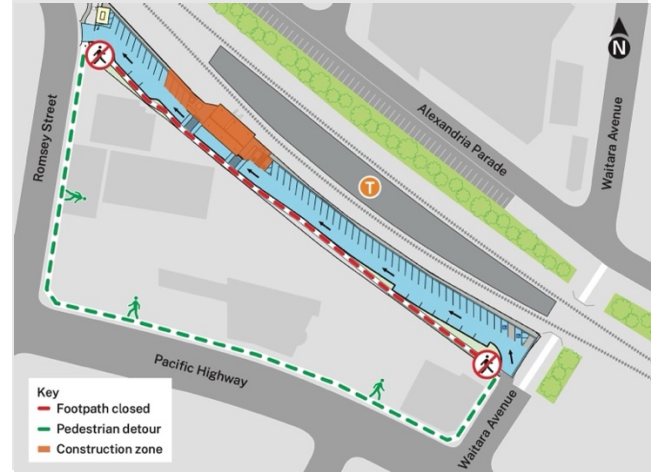

From **Thursday 22 December to Monday 9 January 2024** our project site and offices will be closed over the holiday period. We wish you and your loved ones a safe and happy holiday season and thank you for your patience during our work to upgrade the station throughout 2023.

Footpath closure and changes to pedestrian access

We are continuing to upgrade the footpath between Romsey Street and Waitara Avenue which runs along the length of the commuter car park. The path will be **closed until early 2024, weather permitting.**

Please follow detour signage in place to access the station via the Pacific Highway footpath.
