

Waitara Station Upgrade

Transport Access Program

September 2023

Transport for NSW acknowledges the people of the Darug and Guringai Nations as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

Transport for NSW is upgrading Waitara Station as part of the Transport Access Program to make it easier for everyone to access, including people with a disability or limited mobility, parents/carers with prams and customers with luggage.

What work are we doing in September?

Work planned for September includes continuing:

- concrete work on the new Alexandria Parade pedestrian crossing and forecourt area
- architectural finishes within the new underpass and new station staircases including tiling work and the installation of the new ceiling
- electrical and security system upgrade work within the new underpass, new stairs and around the station precinct and on the platform. Works include fitting the new lights and CCTV cameras
- with the construction of the platform canopy including steel install, roofing works and electrical fit out
- with the fit out of the lift shafts
- building the commuter car park including raising ground levels and installing drainage
- excavation within the existing commuter car park for new underground services including power, telecommunications and drainage.

When we'll be working

Working hours are **7am to 6pm, Monday to Friday and 8am to 1pm, Saturday**. We will notify nearby residents and businesses in advance if we need to work outside these times.

What will this mean for you?

We will be using a range of equipment including mobile cranes, forklifts, excavators, concrete trucks and pumps, elevated work platforms, vacuum trucks, delivery trucks, power tools and hand tools.

Managing our impacts

We aim to manage our work to avoid impacts to the community and the environment. This includes:

- having traffic control and signage in place
- fencing for safety and security
- reducing our noise as much as possible by turning off equipment when not in use and using non-tonal reversing beepers.

Construction progress image

Footpath closure and changes to pedestrian access

We are continuing to upgrade the footpath between Romsey Street and Waitara Avenue which runs along the length of the commuter car park. The path will be **closed until early 2024, weather permitting**.

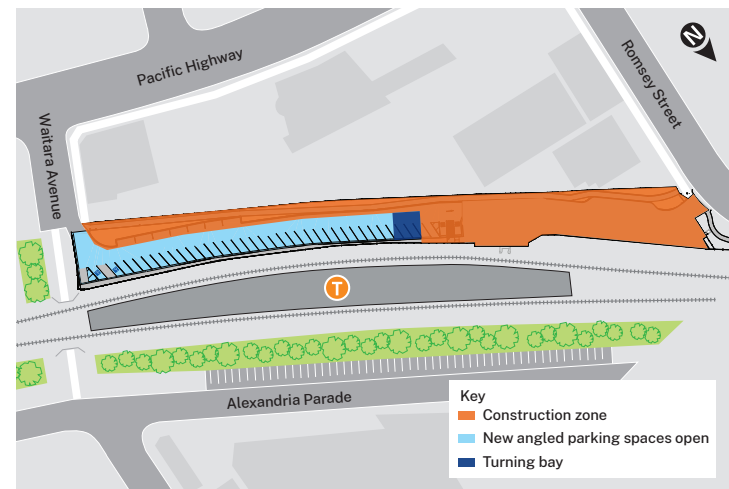

Please follow detour signage in place to access the station via the Pacific Highway footpath.

Changes to car park configuration

In **mid-September**, as we continue upgrade work within the Waitara Avenue commuter car park and footpath, we will reopen new car spaces on the rail corridor side of the car park, switching the **closure to spaces on the footpath side of the car park**, as seen in picture below.

Signage will be in place to assist motorists.
