

More Trains, More Services

Waterfall Stabling Yard and Platform Extension Project

January – February 2023

Transport for NSW acknowledges the Dharawal people as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present. We recognise & celebrate the diversity of Aboriginal peoples and their ongoing cultures & connections to the lands and waters of NSW.

The More Trains, More Services program is delivering platform extensions and rail asset upgrades between Sydney's CBD and the South Coast to support the introduction of the Mariyung fleet.

What work are we doing?

Throughout January and February, we will be completing the following work:

- construction of new track and removal of old track which will include tamping machines and use of vibratory rollers
- installing new overhead wiring and signalling equipment, new drainage and cable routes
- construction of staff footpaths within the rail corridor
- installation of new boundary and security fencing
- construction of new stairways for footbridge
- commissioning of high voltage equipment at Heathcote and Waterfall
- installation of traffic barriers along the Princes Highway southbound to allow for new security fencing.

When and where we'll be working

We will be completing weekend work from:

- **6pm Friday 20 January until 6am Monday 23 January 2023**
- **6pm Friday 10 February until 6am Monday 13 February 2023.**

Traffic barrier installation is also scheduled to take place **overnight on weekdays, between 6pm and 7am in January and February**. This work will require the closure of the southbound shoulder and one lane on the Princes Highway.

Standard construction hours are **7am to 6pm, Monday to Friday** and **8am to 1pm Saturday**.

What will this mean for you?

We understand construction activities may cause disruption to our neighbours and every effort is made to minimise impacts where possible. We appreciate your understanding and patience.

You may notice:

- workers and vehicles
- noise from machinery and equipment
- traffic control and lane closures.

Managing our impacts

Mitigation measures we use include on-site monitoring to ensure compliance with strict environmental conditions relating to noise, vibration and dust management.

This includes:

- reducing our noise as much as possible
- targeted lighting to minimise light spill.

We are going digital

In 2018, Australia generated 5.9 million tonnes of paper and cardboard waste.

We are committed to integrating sustainable practices into our projects and reducing environmental impacts.

In 2023, we will no longer be distributing hard copy notifications to residents on this project unless requested.

Instead, we will be digitally distributing construction updates to project-specific email lists.

To help us reduce paper waste, please visit yoursay.transport.nsw.gov.au/mtms and let us know if you would prefer to receive our updates in your inbox instead of your mailbox.

we will still distribute a paper notification to your address to ensure you are aware of upcoming activities.

Holiday and shutdown period

We will be continuing our construction activities until **Wednesday 21 December 2022**.

A shutdown period will occur from **Thursday 22 December 2022 until Sunday 8 January 2023**. This means no construction activities will take place during this time.

We would like to wish you all a safe and happy

If our work is anticipated to directly impact your property and we do not have your contact details,

Staircases and headstocks at Waterfall Station ready for installation of the staff footbridge in 2023

holiday period. We will see you in 2023!
