

More Trains, More Services

Waterfall Stabling Yard and Platform Extension Project

Construction update

Over the next ten years the **More Trains, More Services (MTMS)** program will simplify and modernise the rail network, creating turn up and go services for many customers. The current stage of the program will deliver improvements for the T4 Eastern Suburbs & Illawarra Line, T8 Airport and South Line and South Coast Line customers.

Project overview

Early work construction is continuing with relocation of services and construction of the retaining wall in the rail corridor. This work is expected to be finished mid-2020.

The main construction contract has been awarded to Transport for Tomorrow, comprising of Laing O'Rourke and KBR who will work in partnership with Transport for NSW to deliver all MTMS projects between Mortdale and Kiama. Site investigations will start at Waterfall this month ahead of the project team starting main construction work in late June. Main construction work is expected to take around two years to complete.

Upcoming work at Waterfall during June

The safety of our project team and the community is our top priority. In line with current Australian Government guidelines around slowing the spread of Coronavirus and social distancing, all work will be carried out at a safe physical distance where possible and necessary hygiene practices will be observed.

During June, the following activities will take place:

- earthwork and piling work for construction of retaining walls in the rail corridor
- civil excavations for the relocation of utilities
- site investigations near Waterfall Station for main construction work.

Day work

All work activities, where possible, will be undertaken during the following hours:

- **7am to 6pm Monday to Friday**
- **7am to 5pm Saturday**
- **No work on Sundays or public holidays.**

Out of hours work

To minimise disruption to customers, and nearby residents and businesses and to help ensure the safety of workers and the community, **during June we will be working at night and on weekends.** See calendar overleaf for further details. Please note this is dependent on weather and site conditions and is subject to change.

Night work during June

This is required for the following activities:

- delivery and removal of materials and plant
- construction of retaining walls
- installation of a barrier between existing underground utilities and future piling sites within the rail corridor
- temporary site establishment for site investigations in the rail corridor.

Temporary speed reduction will be in place during night work on the Princes Highway between Bundarra Street and Eckersley Road from 80 km/h to 40 km/h.

Traffic control will be in place during this time. Every effort will be made to reduce noise impacts during this work.

Trackwork weekend – Saturday 13 June to Sunday 14 June

Site investigations inside the rail corridor will start this month ahead of the Transport for Tomorrow project team beginning main construction work late June. This work includes:

- preliminary site investigations including geotechnical work
- temporary site establishment including a site shed with amenities and a generator
- temporary removal of eight car parking spaces from Wednesday 10 June to Wednesday 17 June.

Traffic control will be in place during this time. Every effort will be made to reduce noise impacts during this work.

To ensure the safety of our customers and staff, this work will be completed during scheduled Sydney Trains trackwork. Train services may be affected. Please contact Transport Info on 131 500 or visit transportnsw.info for more information.

Indicative out of hours work calendar – June 2020

Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
1	2	3	4	5	6	7
8	9	10	11	12	13	14
15	16	17	18	19	20	21
22	23	24	25	26	27	28
29	30					

What you may notice

Equipment to be used includes trucks and other construction vehicles, an excavator, a generator, and various hand and power tools. Transport for NSW is committed to minimising disruption to the community. Work may be noisy at times but we will take every possible step to reduce noise such as turning off machinery when not in use and locating equipment as far away from residents and businesses as possible.
