

More Trains, More Services

Waterfall Stabling Yard and Platform Extension Project

Transport for NSW | November 2022

More Trains, More Services

As part of the More Trains, More Services program, we are upgrading Waterfall Station, the stabling yard and associated rail corridor infrastructure to accommodate the new Mariyung fleet.

Upcoming work

Our upcoming activities include:

- installation of new overhead wiring, overnight between **Saturday 19 November and Sunday 20 November**
- ongoing installation of an Ausgrid transformer on the western side of the Princes Highway, opposite Hanrob Pet Hotels. As this work will involve crane movements, cable pulling across Princes Highway and the installation of supporting infrastructure on the side of the highway, intermittent traffic stoppages will be required:
 - **for 5-minute intervals on some weeknights**
- removal of temporary concrete barriers and installation of guard rails along the Princes Highway to allow for a new roadside barrier **intermittently between Sunday 6 and Saturday 12 November, overnight between 6pm and 7am**. This work will require the closure of the southbound shoulder and 1 lane on the Princes Highway with traffic speed reduced to 40km/hr.

We will also be completing minor work around the Heathcote substation across two weekends. This work is not expected to impact the community.

Preparation for the platform extension will continue inside the rail corridor, including:

- construction of new track and removal of old track which will include tamping machines and use of vibratory rollers
- installing new overhead wiring and signalling equipment, new drainage and cable routes
- construction of staff footpaths within the rail corridor, as well as installation of new boundary and security fencing.

Upcoming night work

Standard construction hours on this project are **7am-6pm Monday to Friday and 8am-1pm on Saturday**.

To improve safety of the community and staff, as well as minimise disruptions to commuters and motorists, some construction activity is required to take place outside of standard hours in November, including:

- **intermittently between Sunday 6 and Saturday 12 November, overnight between 6pm and 7am**
- **between Saturday 19 and Sunday 20 November**
- **for 5-minute intervals on some weeknights this month.**

We may need to carry out some additional night work during November. We will contact you directly if this work is able to go ahead or if there are any changes to the above scheduled out of hours work.

Some deliveries and other minor activities will also take place outside of standard construction hours however this work is not expected to impact the community. We will contact you directly if out of hours work is anticipated to be noticeable at your address.

Postponed or cancelled work

There is a possibility that some of our planned work may be postponed or cancelled. If there are any changes to our planned work, we will keep you updated. We apologise for any inconvenience this may cause and thank you for your understanding. Please contact us if you have any questions or concerns.

We're phasing out paper notifications!

In 2018, Australia generated 5.9 million tonnes of paper and cardboard waste.

We are committed to integrating sustainable practices into our projects and reducing environmental impacts. As part of that, we plan to phase out hard copy notifications to residents, unless requested. Instead, we will be digitally distributing construction updates to project-specific email lists.

To help us reduce paper waste, please visit yoursay.transport.nsw.gov.au/mtms-waterfall and let us know if you would prefer to receive our updates in your inbox instead of your mailbox.

We will continue to remind you of this transition and plan to go entirely digital from **January 2023**. If our work is anticipated to directly impact your property and we don't have your contact details, we will still distribute a paper notification to your address to ensure you are aware of upcoming activities.
