

Waterfall Stabling Yard and Platform Extension Project

More Trains, More Services

August 2023

Transport for NSW acknowledges the Dharawal people of the Dharawal Nation as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

The More Trains, More Services program is delivering platform extensions and rail asset upgrades between Sydney's CBD and the South Coast.

What work are we doing?

As work on the platform extension and stabling yard at Waterfall approaches completion, you may notice less activity from us in the coming months.

Some work, including installation of the staff footbridge, is still required to be completed during scheduled trackwork periods when no trains are running.

The next scheduled trackwork period will be in February 2024.

Work in the upcoming months will involve:

- ongoing construction of the rain gardens
- site inspections and investigations
- construction of new track
- spoil removal.

When and where we'll be working

In the coming months we will be completing minor activities inside and adjacent to the rail corridor along the Princes Highway.

Standard construction hours

Standard construction hours are **7am to 6pm, Monday to Friday and 8am to 1pm Saturday.**

Weekend work

In August, some non-disruptive track work will be completed on Saturdays and Sundays within the rail corridor.

This work is not anticipated to be noisy.

What will this mean for you?

Although work will be slowing down, you may still notice workers and vehicles around our work site. Train services will continue to operate as usual.

We will continue to share project updates with you through our community notifications and email distributions.
