

# Harris Street bus relocation

## Western Distributor Road Network Improvements

November 2023

The Western Distributor connects Wangal and Gadigal Country over Rozelle Bay. Transport for NSW acknowledges the Gadigal and Wangal Peoples of the Eora Nation and pays respect to Elders past and present.

### Transport for NSW will be relocating the bus stop (200926) on Harris Street to improve pedestrian safety.

Community consultation on the Harris Street Bus stop relocation was carried out between 16 October to 5 November 2023.

Transport has reviewed feedback and prepared a consultation summary.

The decision to relocate the bus stop to the northern side of the Allen Street and Harris Street Intersection, was made to improve pedestrian safety and deter jaywalking across the intersection.

### What work are we doing?

As part of the Western Distributor Road Network Improvements project, the bus stop on Harris street will be relocated from the southern side of the intersection with Allen Street to the northern side. Work includes:

- Removing a tree on the north-western corner of the intersection, tree trimming in the local area and fencing adjustments.
- Moving the bus stop to the north of the Allen Street and Harris Street intersection along Harris Street.
- Converting seven existing ½ hour parking spaces to 1-hour parking spaces, south of the intersection.
- Provision of six additional 1-hour parking spaces and a loading zone south of the intersection.

- Removal of six parking spaces and relocation of the loading zone north of the intersection.

### When and where we'll be working

Work is planned to commence **Monday 4 December 2023** and take up to four shifts to complete (weather permitting).

We will carry out work between **8pm and 5am, Sunday to Thursday** to minimise traffic disruptions and provide a safe work environment for our construction crews and road users.

### What will this mean for you?

Our work may be noisy at times, and we will do everything we can to minimise the impact.

You may also notice:

- Workers and vehicles
- Traffic controllers and signage
- Reduced speed limits
- Footpath closures
- Noise from machinery and equipment.

### Parking and traffic changes

There will be minor changes to parking arrangements while we carry out this work, including temporary traffic changes while workers are on site.

Single lane closures, a work zone speed of 40 km/h and traffic control measures will be in effect to provide safety. Please follow speed limits, signage, and traffic control directions, and for the latest traffic updates, you can call **132 701**, visit [livetraffic.com](https://www.livetraffic.com) or download the Live Traffic NSW App.

## Location of work area

### Key features of the bus stop relocation on Harris Street

#### KEY

## Stay up to date

The NSW Government is building and managing a transport network to support the growth and development of Greater Sydney.

Projects like WestConnex, Western Harbour Tunnel and the M6 will become the backbone of our network to move people, goods, and services across Sydney.

Around 120,000 vehicles use the Western Distributor each day, making it one of Sydney's busiest transport corridors.

Transport will make incremental improvements to modernise and upgrade this section of the network and futureproof the Western Distributor and Anzac Bridge as a safe and reliable connection for people travelling throughout Sydney.
