

# Bringelly Road and Camden Valley Way maintenance works

## Start of Works

Transport for NSW | February to April 2023

### Project update

Maintenance works will commence on Bringelly Road between Edmondson Avenue and Browns Road and the intersection of Camden Valley Way, Leppington. These works will include removal and restoration of sections on Bringelly Road and Camden Valley Way (access road), including road, median and landscaping.

### What is happening?

We will start work on **Tuesday 21 February** (weather permitting) which will include:

- establishment of the site compound
- undertaking road and utility investigations
- installing traffic controls, such as barriers, signs and temporary line marking along Bringelly Road
- removal and restoration of road pavement
- removal and restoration of landscaping
- removal and restoration of safety barriers

### Upcoming temporary traffic changes

To ensure the safety of works and road users, traffic changes will be in place on Bringelly Road while work is being carried out including temporary lane and shoulder closures. There will be intermittent stop/slow traffic control and reduced speed limits of **40km/h** in place to guide road users.

Electronic signage will advise road users of these changes. Please keep to speed limits and follow signs and traffic controllers' directions.

### Upcoming weekend and night work

From **Thursday 23 March to Thursday 27 April 2023** night work will be required in addition to work during standard construction hours to enable work on Bringelly Road.

Night work will take place **between 6pm to 5am**, with no more than five consecutive nights of work at one time.

24 hour weekend work will take place from **6pm Friday 7 April to 6pm Sunday 9 April**, weather permitting. If impacted by weather the weekend work will take place on the following weekend.

Work to remove and reseal the access road at the Camden Valley Way intersection will occur during the weekend shutdown **between 6pm to 5am Friday 7 April, Saturday 8 April and Sunday 9 April.**

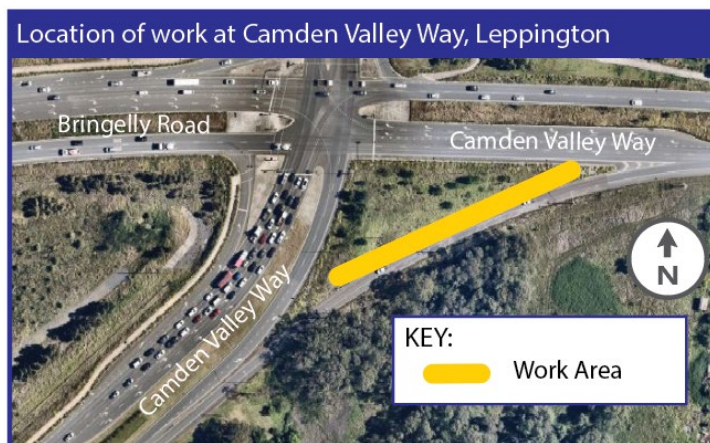

### How will our work affect you?

Property access will be maintained to local residences and businesses. Should we need to limit access at any time, we will reach out to and work directly with the impacted stakeholders.

During our night work we may use machinery and equipment such as large trucks, cranes, elevated work platforms, light vehicles, lighting towers, rollers, line markers, excavators, profilers and asphalt paving machine.

The work may be noisy at times, and we apologise for any inconvenience this may cause.

### Construction hours

Standard working hours are between **7am and 6pm Monday to Friday** and between **8am to 1pm on Saturdays**, excluding public holidays, weather permitting.
