

# Truck deliveries at Little Hartley from 21 November

Coxs River Road Upgrade  
November 2023

Transport for NSW acknowledges people of the Wiradjuri Nation as the Traditional Custodians of the lands on which we work and pays respects to Elders past and present.

The Coxs River Road upgrade will reduce congestion and improve safety and accessibility for all local and highway road users, commuters and pedestrians.

Transport for NSW's contractor, Ertech, is carrying out the works at Little Hartley for the Coxs River Road Upgrade.

We have scheduled nightwork to allow for the safe delivery of Super T bridge girders over a two-week period.

## What work are we doing?

During this time trucks will be travelling through the night to deliver the Super T bridge girders to site in the early mornings.

Delivery has been planned for the early hours of the morning due to the size of the girders and to minimise interruption to highway traffic.

These trucks will enter the site at the eastern end behind the Lollybug and stop beside Coxs River Road.

Once regular day work hours begin a crane will lift and unload the girders.

We do not expect the delivery in the early morning to be noisy for residents.

## When and where we'll be working

We'll be working between **21 November to 5 December 2023**, weather permitting.

Working hours are **3am to 5am, Monday night to Friday morning**.

## What will this mean for you?

Most of this work will have minimal impact on residents. However, you will notice:

- Plant moving in and out of the project site
- Oversize truck and police escorts
- Onsite lighting
- Traffic control and reduced speed limits in place, please allow an additional five minutes for your travel time.

## Managing our impacts

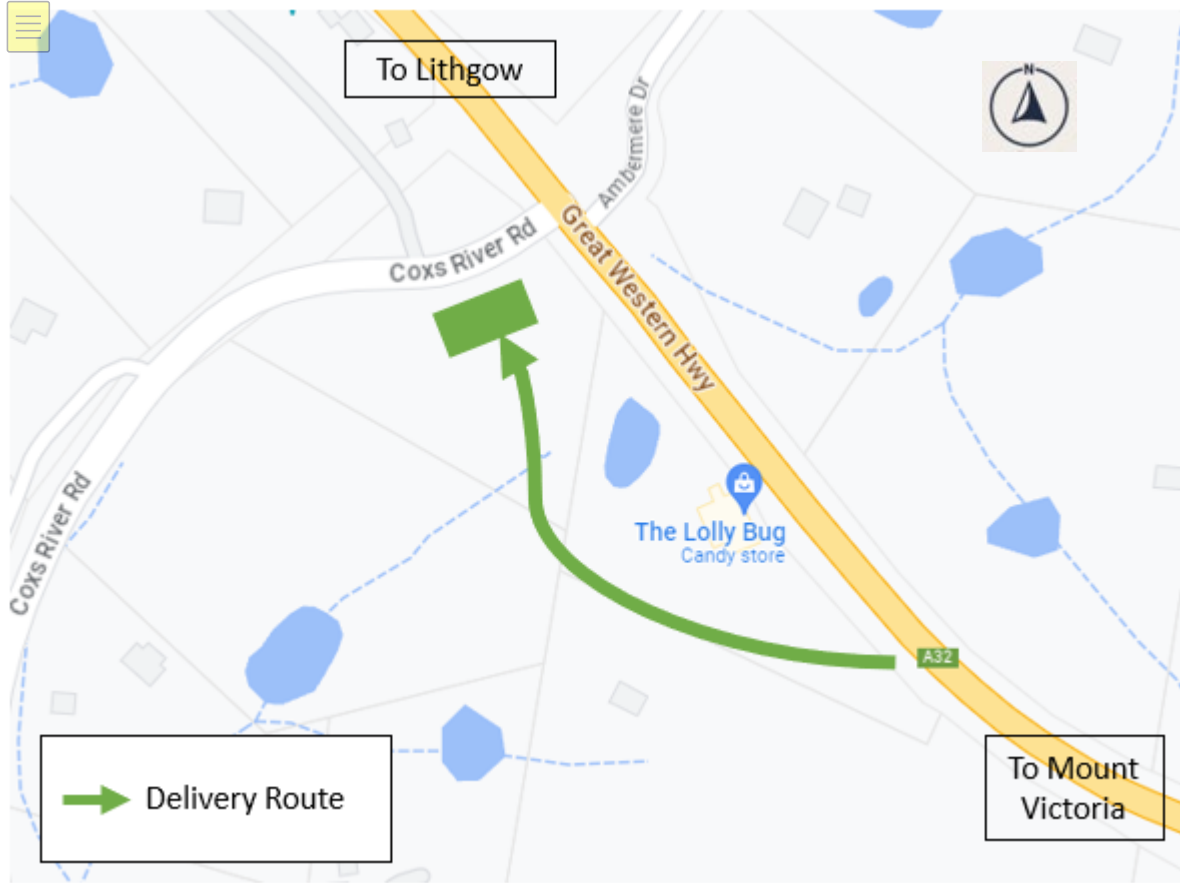

We aim to manage our work to avoid impacts to the community and the environment.

This includes:

- Fencing work areas for safety and security
- Directing lighting away from residential areas where possible
- Reducing our noise as much as possible by working in stages and turning off machinery when not in use.

## Location of work area

## Traffic changes

Traffic control and reduced speed limits will be in place. Please allow an additional five minutes for your travel time.

All road users are advised to follow the directions of signs and traffic control and slow down on approach.

For the latest traffic updates, call 132 701, visit [livetraffic.com](http://livetraffic.com) or download the Live Traffic NSW App.

We understand that this work may generate some inconvenience and we thank you for your patience.
