

Nightwork on the Great Western Highway at Raglan from September 3

The NSW Government is investing \$73 million to upgrade the Great Western Highway between Kelso and Raglan near Bathurst.

Transport for NSW will carry out the work which includes the removal of temporary stormwater pipes and installation of irrigation pipes for landscaping at multiple locations as part of the Great Western Highway Upgrade Program - Kelso to Raglan.

Works will take place near Locke Street, Napoleon Street, Eugenie Street and the BP petrol station exit driveway. We have included a map to show the locations of the work.

We will be working at night between **6pm** and **6am** from **Sunday** to **Friday**, and expect to complete the work in one week, weather permitting. We will let you know in advance if we need to do any work outside these times.

How will the work affect you?

The work will involve machinery which generates noise. We will make every effort to minimise this completing noisier activities earlier in the night and turning off machinery and vehicles when not in use.

Traffic changes

Traffic control, intermittent stopping and a 40km/h speed limit will be in place during work hours and may affect travel times. Motorists should allow up to five minutes extra travel time during this work.

Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit [livetraffic.com](https://www.livetraffic.com) or download the Live Traffic NSW App.

Contact

If you have any questions, please contact our Project Team on 1800 953 777 or email kelsotoraglan@transport.nsw.gov.au.

For more information on the Great Western Highway upgrade between Kelso and Raglan please visit nswroads.work/kelsotoraglan.

Thank you for your patience during this important work.
