

Guide to Councils

Traffic Management and Pedestrian Works Temporary Delegation

The intent of the pedestrian works temporary delegation is to facilitate more efficient and localised decision making.

The pedestrian works selected for this delegation have been identified as opportunities for councils to exercise their understanding of local needs and implement appropriate designs according to well established [Transport for NSW \(TfNSW\) standards, specifications and technical directions](#), Australian Standards and the [Austroads guidelines](#).

The delegation is a trial to help Transport for NSW (TfNSW) evaluate expanded localised decision-making. The information gathered from councils exercising the delegation will inform TfNSW as to whether the delegation requires refinement and will assist shaping longer term traffic management strategies.

The delegation may be revised or revoked at any time.

How to use the delegation

The delegation allows councils to approve and implement selected pedestrian works without needing to seek concurrence, approval or input from TfNSW. Councils do not need to seek the advice of their Local Traffic Committee (LTC).

That said, the delegation does not stop councils seeking additional advice from TfNSW or LTC to implement the selected pedestrian works. It is designed to offer a more streamlined process for decision making.

TfNSW and LTC actively welcome Councils to seek advice or assistance if it is considered useful.

What is being delegated?

Subject to the conditions set out in the delegation, councils will be able to design and implement the following:

- Works to enable alfresco dining on a road (where there is no change to the number of continuous travel lanes)
- Continuous footpaths
- Converting existing pedestrian (zebra) crossings to raised pedestrian ('wombat') crossings
- Mid-block treatments to manage vehicle speed including road humps, road cushions, chicanes and slow points
- Pedestrian crossings (i.e. not at signals)
- Pedestrian refuges

- No Stopping controls at intersections
- Kerb buildouts to reduce intersection crossing distance or manage vehicle speed (where there is no change to the number of continuous travel lanes)
- Kerb modifications for footpath improvements or tree planting (where there is no change to the number of continuous travel lanes)
- Associated changes to kerbside parking necessary to implement the proposal and to offset any parking impacts.

Novel designs and works are excluded under the delegation. Any novel works, where there are no TfNSW standards, technical directions or Austroads guidance available, will be subject to existing processes.

Reporting Requirements

The delegation will assist in evaluating whether localised decision making for certain works is a more sustainable and effective model for councils.

The reporting requirement will assist TfNSW to respond to any issues, provide support to councils and evaluate the efficacy of the temporary delegation for long term local traffic management strategy.

When exercising the delegation, council must provide TfNSW and NSW Police:

1. A description of the pedestrian work;
2. A copy of the as-built design plans; and
3. A copy of the road safety audit if establishing a new pedestrian crossing

The information is to be sent to delegated_works@transport.nsw.gov.au.
