

# Culvert strengthening works – Kamilaroi Highway, Walgett

May 2023

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

## Culvert strengthening works will be carried out on the Kamilaroi Highway between Walgett and Narrabri.

The location of works is from the intersection with Beanbri Road, east of Walgett, to Burren Junction, a total length of about 47 kilometres. We have included a map to show location of the works.

### What work are we doing?

Walgett Shire Council will deliver the work which will include replacing and extending 12 culverts located on the Kamilaroi highway between Walgett and Burren Junction.

### When we'll be working

Work will be carried out from **Wednesday 31 May for about four weeks**, weather permitting.

Working hours are between **7am and 6pm Monday to Friday** and between **7am and 1pm on Saturdays** from **31 May**.

We will let you know in advance if we need to do any work outside these times.

### Traffic changes

There will be temporary traffic changes to ensure the work zone is safe.

**Lane closures and a 40km/h speed limit will be in place during work hours and may affect travel times.**

Motorists should allow up to **5 minutes extra travel time** during this work.

Outside work hours, both lanes will be open and revert to the posted speed limit

### Oversize Overmass (OSOM) Vehicles

Restrictions will be in place for **vehicles over 5 metres wide** during work hours. Vehicles which exceed this limit will need to **notify us on 0400 472 488 ahead of your journey** so that arrangements can be planned within the construction area to minimise delays.

### What will this mean for you?

Please keep to speed limits and follow the direction of traffic controllers and signs.

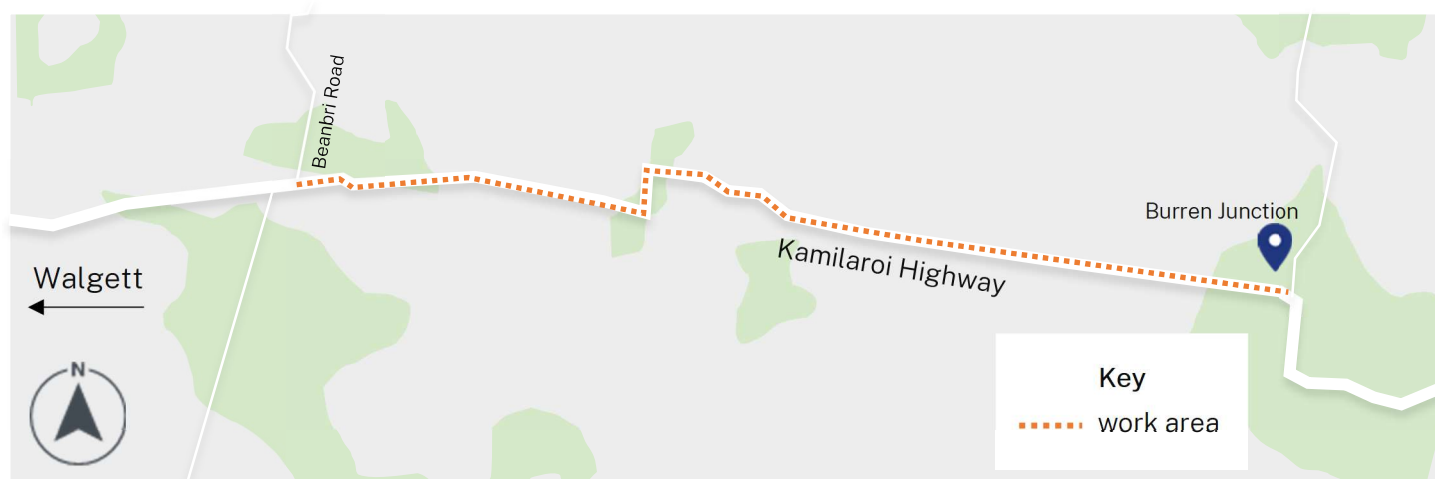

For the latest traffic updates, you can call 132 701, visit **livetraffic.com** or download the Live Traffic NSW App.

### Managing our impacts

The work will involve the use of machinery which generates some noise. We will make every effort to minimise noise by turning off machinery and vehicles when not in use.
