

## Kingsford to Centennial Park Walking and Cycling Improvements

### Upcoming work | July 2023

We are continuing the construction work along the project alignment to build the new cycleway.

#### Upcoming work – standard hours

Our standard construction hours are Monday to Friday, 7am to 6pm and Saturday, 7.30am to 3.30pm. Work is dependant on weather and site conditions and is subject to change.

Please refer to the maps overleaf for locations of upcoming work.

- Continue pavement work and electrical work on Doncaster Avenue between Anzac Parade and Day Avenue and on Houston Road between Day Avenue and Barker Street – **up to 20 days of work**
- Commence concrete traffic separator work on Doncaster Avenue between Anzac Parade and Day Avenue – **up to two days of work**
- Continue electrical work on Doncaster Avenue between Alison Road and Anzac Parade – **up to two days of work**

#### Upcoming work – out of hours

Most work will be completed during the day, however, to maintain safety for road users and workers, and to keep people moving on local roads, we need to carry out some of our work outside normal construction hours.

Upcoming out of hours activity includes:

- Line marking on Doncaster Avenue between Alison Road and Day Avenue and on Houston Road between Day Avenue and Barker Street – **up to ten nights of work**
- Asphaltting the cycleway and the road on Doncaster Avenue between Alison Road and Day Avenue and on Houston Road between Day Avenue and Barker Street – **up to 15 nights of work**
- Construct concrete median islands on Day Avenue – **up to six nights of work**

- Implement traffic changes on Doncaster Avenue and Houston Road – **up to five nights of work**
- Electrical work on Doncaster Avenue between Bowral Street and Todman Avenue – **up to five nights of work**
- Traffic signal work on Doncaster Avenue at the intersection of Todman Avenue – **up to two nights of work**
- Concreting work on Doncaster Avenue near Abbotford Street – **up to three nights of work**
- Replace concrete kerbing, footpaths and medians on Day Avenue between Doncaster Avenue and Houston Road – **up to ten nights of work**
- Landscaping work on Day Avenue between Doncaster Avenue and Houston Road – **up to five nights of work**

This work will occur up to five nights a week between 7pm and 5am, dependant on weather and site conditions. We do not work public holidays.

#### Minimising community impact

Scan the QR code to visit the project webpage

Our work activities will require the use of machinery that generates noise and vibration. Equipment used for these activities include saw-cutter, excavator, concrete truck, compaction equipment, vacuum truck, excavators and hand and power tools.

If work is required out of hours, we will also use mobile lighting towers.

To minimise the impact of this work we will:

- fit equipment with devices to minimise noise, particularly non-tonal reversing beepers

- monitor noise periodically so we can manage any potential impacts and adjust our work as required.

In addition, at night we will also:

- complete the noisiest activities such as saw-cutting and jackhammering by midnight
- direct temporary lighting down and away from houses
- turn off machinery when not in use
- use noise blankets to minimise noise, where feasible.

We will work with residents near this work to minimise impacts and all work will be carried out in line with project environmental approvals.

There may be some parking removal associated with these works. Residents will be notified in advance.

### Site compounds

Site compounds were established in 2022 and will continue to be used throughout the project for the storage of materials and equipment, site offices and work amenities.

Our site compound may be used during our standard and out of hours work and plant and machinery may be in operation during this time.

Currently, our compound is located on Bass Street at the intersection of Anzac Parade.

### Traffic and pedestrian path changes

There will be temporary lane closures to ensure the safety of road users and workers and temporary changes to parking.

There may be partial footpath closures near our work area and alternative path and signs will be in place.

We may also have detours in place for some of our work. Properties affected by these detours will be notified directly.

Please allow extra travel time, keep to speed limits and follow signs and traffic controller directions.

For the latest traffic updates, call 132 701, visit [livetraffic.com](http://livetraffic.com) or download the Live Traffic NSW app.
