

# Notice of weekend work on 21 October

## Lane Cove Road and Waterloo Road Intersection upgrade, Macquarie Park October 2023

Australian Government

Transport for NSW acknowledges the Wallumattagal people of the Dharug Nation as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

Transport for NSW is upgrading the Lane Cove Road and Waterloo Road intersection to improve bus travel through the intersection, reduce congestion and improve travel times.

### When and where we'll be working

From 7pm Saturday 21 October to 6am Sunday 22 October 2023, we will connect one of the three new water mains to the Sydney Water network.

Construction activities will be on the westbound direction of Waterloo Road between Lane Cove Road and Coolinga Street, and the northbound direction of Lane Cove Road between Epping Road and Waterloo Road.

This work will require a water supply interruption. Affected properties will receive a separate notification from Sydney Water confirming details of the water supply interruption.

Access to driveways will be maintained.

### What will this mean for me?

Work will be done over one night shift to reduce disruption to traffic and for the safety of our workers and road users.

You may experience some intermittent noise from saw cutting, jackhammering, and digging in the road.

We will do what we can to reduce any disturbance, including:

- ensuring plant and equipment is in good condition
- turning off vehicles and equipment when not in use and using non-tonal reversing beepers
- using two-way radios to communicate
- using noise barriers to reduce noise where possible

### Traffic changes

There will be temporary traffic changes along Lane Cove Road and Waterloo Road during this work. Temporary changes will include:

- temporary bus stop closures along Lane Cove Road and Waterloo Road
- temporary lane closures

Traffic controllers and signage will be in place to help guide pedestrians and motorists through the work areas.

Please keep to speed limits and follow the direction of traffic controllers and signs.

Travel times may be affected, so we thank you for your patience during this essential work.
