

Manly Wharf 3

Site investigations

August 2023

Transport for NSW acknowledges the Garigal and Caregal people of the Guringai Nation as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

Transport for NSW (Transport) is continuing its planning on the proposed upgrade of Manly Wharf 3.

What work are we doing?

As part of our planning, we need to carry out site investigations waterside and landside of the existing wharf.

These investigations will include:

- drilling of four geotechnical boreholes to assess seabed conditions
- non-intrusive dive surveys of the area around the wharf
- land surveying and investigation of existing wharf utility services
- drone photography over the site.

When we'll be working

Our work will take place over **four weeks** from **Monday 7 August until Friday 15 September** between 8am and 5pm Monday to Friday, weather and maritime conditions permitting.

The wharf will be closed to ferry operators and recreational vessels for no more than **two days** weather permitting during this period while geotechnical investigations take place.

We will advise operators of exact dates prior to any closures.

No work will take place on weekends or public holidays.

How will our work impact you?

Some of our work may be noisy at times. We will do everything we can to minimise these impacts where possible.

We ask pedestrians to take care when moving around our work areas and follow the direction of signage.

Wharf impacts

Wharf 3 will be closed for no more than two days weather permitting during the investigations.

During this time berthing access will be maintained at Wharf 1 and 2.

Equipment and machinery will be positioned on a barge near Wharf 3 to allow for geotechnical investigations to take place of the seabed.
