

Mascot Station Upgrade

More Trains, More Services

September 2023

Transport for NSW acknowledges the Gweagal, Bidjigal and Gadigal Clans as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

Transport for NSW is continuing construction of the Mascot Station Upgrade as part of the More Trains, More Services program.

Key features of the work include:

- a new integrated entrance and exit into Mascot Station
- escalators and a lift to the lower paid concourse
- additional ticket gates
- new toilets in the paid concourse of the station.

What work are we doing?

During September there will be ongoing work to the new western entry, existing station, and on Bourke Street.

Work includes:

- minor road work
- electrical work
- saw-cutting
- Sydney Water utility works
- building fit-out and installation of services within the new western entry
- structural steel installation
- cladding and glazing
- continued mechanical, electrical, communications and plumbing trades in the station
- installation and commissioning of the new entrance escalators and lift systems
- installation of temporary site sheds at the northern end of Bourke Street and storage container in the carpark beside the existing station entrance
- landscaping around the new station entrance

- removal of site sheds on Bourke Street to allow for civil construction at the new plaza area.

When and where we'll be working

Our construction hours are between **7am** and **6pm** Monday to Friday and **7am** and **6pm** on Saturdays.

The work will take place within the worksite on the western side of Bourke Street.

To carry out the work, the construction workers will be using hand-held tools, rattle guns, a forklift, jackhammers, concrete saws, concrete pumps, generators, excavators and other construction machinery.

Out-of-hours work

The team will be undertaking out-of-hours work on the water main at the corner of Bourke and John Streets between **8pm to 4am Tuesday 19 September 2023**.

To carry out the work, construction workers will be using hand-held tools and directly impacted residents will be contacted individually.

Upcoming road reinstatement work

In October, roadwork will be undertaken to reinstate Bourke Street between Church Avenue and John Street to how it was before the project began in 2021.

This will involve weekend road closures. Detours and signage will be in place to guide road users around Bourke Street. Traffic control will be on-site to allow local resident access via Church Avenue and John Street.

We understand that this work will generate noise and cause inconvenience in the area. We will provide further

details to the community and impacted residents well in advance of this work.

Anticipated project completion

Due to wet weather, supply chain issues and special event clashes, there have been delays which have impacted upon the project's anticipated completion date. The current estimated project completion is Spring 2023. Please note this is subject to change and weather dependent.

What will this mean for you?

You may notice:

- traffic controllers and signage
- noise from machinery and equipment.

Managing our impacts

This work may be noisy however, every effort will be made to minimise noise to the community.

This work is dependent on-site conditions and is subject to change. We will notify you if the dates and times of work change.

We aim to manage our work to avoid impacts to the community and the environment.

This includes:

- fencing for safety and security
- reducing our noise as much as possible
- targeted lighting to minimise light spill.
