

Mascot Station Upgrade

More Trains, More Services

December 2023 and January 2024

Transport for NSW acknowledges the Gweagal, Bidjigal and Gadigal Clans as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

Transport for NSW is continuing construction of the Mascot Station Upgrade as part of the More Trains, More Services program.

Key features of the work include:

- a new integrated entrance and exit into Mascot Station
- escalators and a lift to the lower paid concourse
- additional ticket gates
- new toilets in the paid concourse of the station.

What work are we doing?

During December there will be ongoing work to open the new western entry to the station on Bourke Street. In January it is expected that there may be some finishing work.

Work will include:

- footpath reinstatement
- communication and electrical system work as well as the new lift and escalators
- saw-cutting
- entrance fit-out
- cladding and glazing installation
- temporary traffic control measures including pedestrian management

When and where we'll be working

Our construction hours are between **7am** and **6pm** Monday to Saturday.

The work will take place within the work site on the western side of Bourke Street and within the existing station

To carry out the work, the construction workers will be using hand-held tools, road saws, rattle guns, a forklift, jackhammers, concrete saws, concrete pumps, generators, excavators and other construction machinery.

Thank you for your patience

The original taxi rank, kiss and ride and parking on Bourke Street between Church Avenue and John Street are anticipated to be reinstated in the coming weeks, and the temporary arrangements on John Street will be removed.

What will this mean for you?

You will notice:

- traffic controllers and signage
- noise from machinery and equipment

Managing our impacts

This work may be noisy; however, every effort will be made to minimise noise to the community.

This work is dependent on-site conditions and is subject to change. We will notify you if the dates and times of work change.

We aim to manage our work to avoid impacts to the community and the environment.

This includes:

- fencing for safety and security
- reducing our noise as much as possible
- targeted lighting to minimise light spill.
