

Mascot Power Supply Upgrade

More Trains, More Services

November and December 2023

Transport for NSW acknowledges the Gweagal, Bidjigal and Gadigal Clans as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

Transport for NSW is upgrading the power supply to support an increase to the number of services operating through the T8 Airport Line tunnel and support the introduction of the new fleet of trains operating along the T8 Airport Rail Line.

What work are we doing?

In 2022 we constructed a 400-metre cable tunnel from the new substation at 166 O’Riordan Street to Mascot Station. Last month we installed a new ventilation system near the station on Bourke Street, including a duct and louvre grill as shown overleaf. This will allow airflow inside the cable tunnel.

In November and December 2023 we will continue to work on the new ventilation system inside Mascot Station. Additionally, electrical work will take place inside the T8 Airport Line Tunnel which we will access from Mascot Station.

Work includes:

- cable, overhead wiring and utility installations inside the T8 Airport Line Tunnel
- delivery and collection of plant, materials and equipment from Mascot Station
- managing a temporary work zone including temporary worker amenities
- replanting around a third of the garden bed (which was previously removed) near the corner of Bourke and John streets.

When and where we’ll be working

Standard construction hours are **7am to 6pm, Monday to Friday and 8am to 1pm on Saturdays.**

We’ll be working in Mascot Station and use the entrance to load/unload materials and equipment. We’ll also be working near the corner of Bourke and John streets. The map overleaf shows the work zone.

Out of hours work

For safety reasons some work and deliveries will take place outside of standard construction hours when no trains are running:

- between **11pm and 4am from Monday 6 November to Monday 20 November 2023**
- from **10pm Friday 24 November to 1pm Monday 27 November 2023**
- from **10pm Friday 8 December to 1pm Monday 11 December 2023.**

We will use site compounds at 166 and 200 O’Riordan Street to support the work. All construction work is weather permitting and subject to change.

What will this mean for you?

You may notice:

- workers and vehicles
- noise from machinery and equipment
- traffic controllers.

Managing our impacts

We understand our work may cause disruption for the community. We will seek to minimise impacts as much as possible and follow strict environmental conditions relating to noise, vibration and dust management.

There's a lot happening

There are other projects currently being undertaken in Mascot. For more information on Mascot Station Upgrade, please visit <https://yoursay.transport.nsw.gov.au/mascot-station-upgrade> or contact us via the details below and ask to speak to a member of the Mascot Station Upgrade project.
