

Planned out of hours work from December 2023 to February 2024

Newcastle Inner City Bypass – Rankin Park to Jesmond

December 2023

Australian Government

Transport for NSW acknowledges the Awabakal people of the Awabakal Nation as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The Australian and NSW governments are funding the Rankin Park to Jesmond section of the Newcastle Inner City Bypass.

Work is continuing on the 3.4 kilometre section of the bypass. Transport for NSW has engaged Fulton Hogan to finalise the design and construct this section of the bypass.

What work are we doing?

Continued bridge works at the Jesmond roundabout and also at McCaffrey Drive, also earthworks, including loading, placement and hauling of material within the construction zone, utility works, drainage installation, and roadworks.

When and where we'll be working

The work will occur along the length of the bypass from the southern interchange on Lookout Road and McCaffrey Drive at Rankin Park, to the northern interchange on Newcastle Road and Main Road, Jesmond, with additional works to occur in Jesmond Park and near the John Hunter Hospital.

Day work on **Monday to Friday** between **7am** and **6pm** and **Saturday** between **8am** to **5pm**.

Some activities are required outside of daytime project hours for the safety of workers and road users, and to minimise traffic delays to the network.

Night work will be carried out from **Sunday to Thursday** between **6pm** and **7am**.

There will be no work during the Christmas shutdown from Friday 22 December 2023, returning Monday 8 January 2024.

What will this mean for you?

At times we will use machinery and equipment that generates light, noise, and vibration. We will make every effort to minimise these impacts by:

- turning off machinery and vehicles when not in use
- using non-tonal reversing alarms
- positioning of machines and noise blankets
- directing temporary lighting down and away from homes
- planning activities close to residents within standard construction hours and scheduling noisy activities earlier in the night, where possible, monitoring noise so we can manage any potential impacts and adjust our work, where possible.

Noise levels will vary between moderate to noisy. Directly affected residents will be contacted and advised of the likely impact and what we are doing to minimise disruption during the work.

Managing our impacts

During night work there may be temporary lane closures with intermittent stop/slow traffic control, reduced speed limit of 40km/h will be in place on Newcastle Road near the Newcastle Inner City Bypass roundabout, Lookout Road, McCaffrey Drive and on the existing Newcastle Inner City Bypass.

Please keep to the signposted speed limits and follow the direction of traffic controllers.
