

January 2023

Nowra Bridge project

Night work in February 2023

Upcoming night work

Night work will be carried out from **Wednesday 1 February to Tuesday 28 February 2023**, on the Princes Highway, Scenic Drive, and Bolong, Illaroo and Bridge roads.

For the safety of workers and road users, and to avoid extended traffic delays during the day, works will be done at night between 6pm and 7am, weather permitting.

A map of the night work areas and a summary of activities is included in this notification.

Upcoming asphalt and road pavement construction work

In the coming weeks, work to place asphalt and construct road pavement at multiple locations across the project will be carried out. For the safety of workers and to reduce the impact on motorists, this work will be carried out at night.

Pedestrian access will be maintained at all times, however there may be some changes.

Details of the locations and timing of work areas is included in this notification.

Details of planned work

Location	Activities	Occurrence
<p>Princes Highway (between Mattes Way and Bomaderry Creek Bridge)</p>	<p>Placing and removing temporary traffic signals, barriers and material. Relocating and installing stormwater drainage, street lighting, footpath, kerb and gutter. Placing asphalt, pavement construction and line marking. Installing and commissioning electrical and telecommunication services.</p> <p>Location of asphalting work:</p> 	<p>Up to 20 nights, including up to 7 nights of asphalting from Wednesday 15 February, weather permitting.</p>
<p>Bolong Road</p>	<p>Placing and removing temporary traffic barriers and material. Installing footpath, kerb and gutter. Placing asphalt and line marking.</p>	<p>Up to 10 nights</p>
<p>Illaroo Road (including intersection with the Princes Highway)</p>	<p>Placing and removing temporary traffic barriers and material. Relocating and installing street lighting, traffic control signals and service investigation work. Earthworks and pavement construction, Kerb construction and median construction. Placing asphalt and line marking.</p> <p>Location of asphalting work:</p> 	<p>Up to 15 nights, including 1 night of asphalting from Wednesday 15 February, weather permitting.</p>
<p>Princes Highway (new Nowra Bridge)</p>	<p>Placing asphalt and pavement construction.</p>	<p>Up to 10 nights</p>

Scenic Drive	General office activities, pre-starts, vehicle movements, earthworks, material stockpiling and deliveries.	Up to 20 nights
Bridge Road	Placing and removing temporary traffic barriers and material. Relocating and installing street lighting, traffic control signals and service investigation work. Placing pavement, asphalt and line marking. Temporary traffic changes will be in place during some of this work, which may include detours via Moss Street.	Up to 20 nights
Princes Highway (between Shoalhaven River and Moss Street)	Placing and removing temporary traffic barriers and material. Relocating and installing street lighting, traffic control signals, stormwater drainage, pavement construction, footpath, kerb and gutter, and landscaping. Placing asphalt and line marking. Location of asphalting work: 	Up to 20 nights, including up to 2 nights of asphalting from Wednesday 15 February, weather permitting.
Pleasant Way	Placing and removing temporary traffic barriers and material. Drainage works.	Up to 3 nights

Why is work carried out at night?

There are a number of reasons why work is required outside standard construction hours including:

- **Safety** – work outside standard construction hours helps us improve safety by minimising the interactions between road users, pedestrians and workers
- **Traffic** – to safely carry out activities, traffic may be stopped, detoured or reduced to one lane. By working at night, delays are minimised and journey times for motorists and businesses are less affected
- **Utilities** – work may be required at night to minimise impacts on utility services and networks
- **Weather** – even when it's not raining, temperature and wind can impact activities including placing concrete and laying asphalt

- **Quality** – the quality of concrete and asphalt can be impacted if activities are not continuous

How will the work affect you?

During this work we will be using machinery and equipment that generate light, noise and vibration. We will make every effort to minimise disruption by:

- turning off machinery and vehicles when not in use
- using noise shields
- directing temporary lighting down and away from homes
- planning activities close to residents within standard construction hours and scheduling noisy activities earlier in the night, where possible
- fitting equipment with devices to minimise noise including reversing squawkers rather than beepers
- monitoring noise so we can manage any potential impacts and adjust our work, where possible.

Equipment being used during night work includes light vehicles and trucks, cranes, elevated working platforms, lighting towers, power tools, concrete pump trucks, drill rigs, water trucks, street sweepers, asphalt machinery, rollers, excavators, and graders. We will continue to monitor noise and vibration impacts during this work.
