

More Trains, More Services

Sydney Terminal Area Reconfiguration

January – March 2024

Transport for NSW acknowledges the Gadigal people of the Eora Nation as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

We are upgrading rail infrastructure between Sydney Terminal at Central Station and Erskineville Junction to ensure new trains on the South Coast Line can access platforms 1 to 14.

What work are we doing?

To enable work on this project, we will be using the Redfern Yard (see image on back page) for worker parking, removing impacts to street parking for local residents, visitors and businesses.

We will be using this area for parking from:

- **Friday 26 January until Monday 29 January 2024**
- **Friday 9 February until Monday 12 February 2024**
- **Friday 1 March until Monday 4 March 2024**

During these periods, the location indicated on the back page will be operational 24/7.

Location of parking area

KEY — ACCESS TO PARKING

You may notice:

- workers and vehicles
- lighting from temporary lighting towers.

Every effort will be made to minimise impacts where possible, including conducting on-site monitoring to ensure compliance with strict environmental conditions relating to noise and dust management.
