## Tuggerah Station Upgrade

September 2023

Transport for NSW acknowledges the Darkinjung people as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

Transport for NSW is upgrading Tuggerah Station. The upgrade will provide a train station that is accessible to those with a disability or limited mobility, parents/carers with prams and customers with luggage.

Progress of micropiling works next to platform 2.

### What we are doing in September?

Work includes:

- continuation of piling works within our enclosed site areas
- minor earthwork activities including loading of waste material off site
- trenching within the Bryant Drive carpark for utility relocation works
- standing of two new power poles within the Bryant Drive carpark to allow undergrounding of the existing overhead service.

Drivers will also continue to see construction vehicle movement and traffic control set-up on Pacific Highway and Anzac Road.

- Throughout the month of September, there will be continued temporary changes to car parking arrangements at Tuggerah Station, to allow for utility relocation work. Signage will be in place to provide further details.

### When we'll be working

Standard construction hours are **7am to 6pm Monday to Friday** and **8am to 1pm Saturday**. We will notify nearby residents and businesses in advance if we need to work outside these times.

### Out of hours

During the Labour Day long weekend, from **6am Saturday 30 September** until **11pm Monday 2 October**, utility relocation works will continue in the Bryant Drive commuter carpark. To support the works, additional plant movements will occur throughout the carpark, with sections fenced off to protect commuters.

There may be some occasional, minor disruptions to pedestrians, but platforms and footbridge access will remain open all weekend as the station operates normally.

A traffic control team will be available to assist with any construction impacting pedestrian movement. Thank you for your patience as we carry out this important work.
