Tuggerah Station Upgrade

August 2023

Transport for NSW acknowledges the Darkinjung people as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

Transport for NSW is upgrading Tuggerah Station. The upgrade will provide a station that is accessible to those with a disability or limited mobility, parents/carers with prams and customers with luggage.

What we are doing in August?

Work includes:

- continuation of piling activities on both sides of the station
- minor earthwork activities including loading of waste material off site will continue in support of the piling works
- trenching within the Bryant Drive carpark for power line works

Drivers will also continue to see construction vehicle movement and traffic control set-up on Pacific Highway and Anzac Road.

Throughout the month of August, there will be continued temporary changes to car parking arrangements at Tuggerah Station, to allow for utility relocation work. Signage will be in place to provide further details.

When we'll be working

Standard construction hours are 7am to 6pm Monday to Friday and 8am to 1pm Saturday. We will notify nearby residents and businesses in advance if we need to work outside these times.

Out of hours

From **6am to 6pm** on **Saturday 5 August** and **Sunday 6 August**, works will be undertaken to stand power poles, continue trenching and piling, and other investigation activities around the station platforms. Activities will include the use of power pole and concrete trucks and hand tools. To support the above activities, additional plant movements will occur throughout the commuter car park over this weekend. Pedestrian access over the bridge will be maintained at all times.

Managing our impacts

We aim to manage our work to avoid impacts to the community and the environment.

This includes:

- traffic control and signage will be in place
- reducing our noise as much as possible.
