

Rail Service Improvement Program

Arncliffe, Wolli Creek and Tempe

August and September 2024

Transport for NSW acknowledges the Gweagal, Bidjigal and Gadigal Clans of the Eora Nation as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The Rail Service Improvement Program, formerly known as **More Trains, More Services**, enables a safer, more equitable, and integrated transport network where people can move safely, reliably, and efficiently across NSW.

What work are we doing?

From mid-August 2024, we will be completing potholing to identify underground services on Arncliffe Street in preparation for installation of signalling infrastructure, starting in September 2024.

In September, we will be removing redundant cable infrastructure including electrical poles at Wolli Creek. We will also be extending the existing road within the site compound, which will occur following the removal of the sectioning hut in August.

Please note this notification is in addition to the Wolli Creek August notification digitally distributed to Wolli Creek residents in July 2024. To view all work activities across the program, please visit caportal.com.au/tfnsw/mtms and explore the construction map.

When and where we'll be working

Work will be undertaken inside the rail corridor between Tempe and Arncliffe. Access to work areas will be via:

- Arncliffe Street near the commuter car park and at Burrows Street
- the Tempe temporary site compound
- Guess Avenue between Mount Olympus Boulevard and Bonar Street
- the site compound on Lusty Street.

Please see the location map on page 2.

Standard construction hours on this project are between **7am and 6pm Monday to Friday and 8am and 1pm on Saturdays**.

Out of hours work

In September, some work is required to take place outside of standard construction hours.

This work will take place between **6pm Thursday 19 September and 7am Monday 23 September 2024**.

Why we work outside of standard construction hours?

We schedule work outside of standard construction hours to take place during Sydney Trains trackwork periods when no trains are running, minimising disruptions to commuter services and improving the safety of our construction team and customers.

What will this mean for you?

You may notice:

- workers and construction vehicles

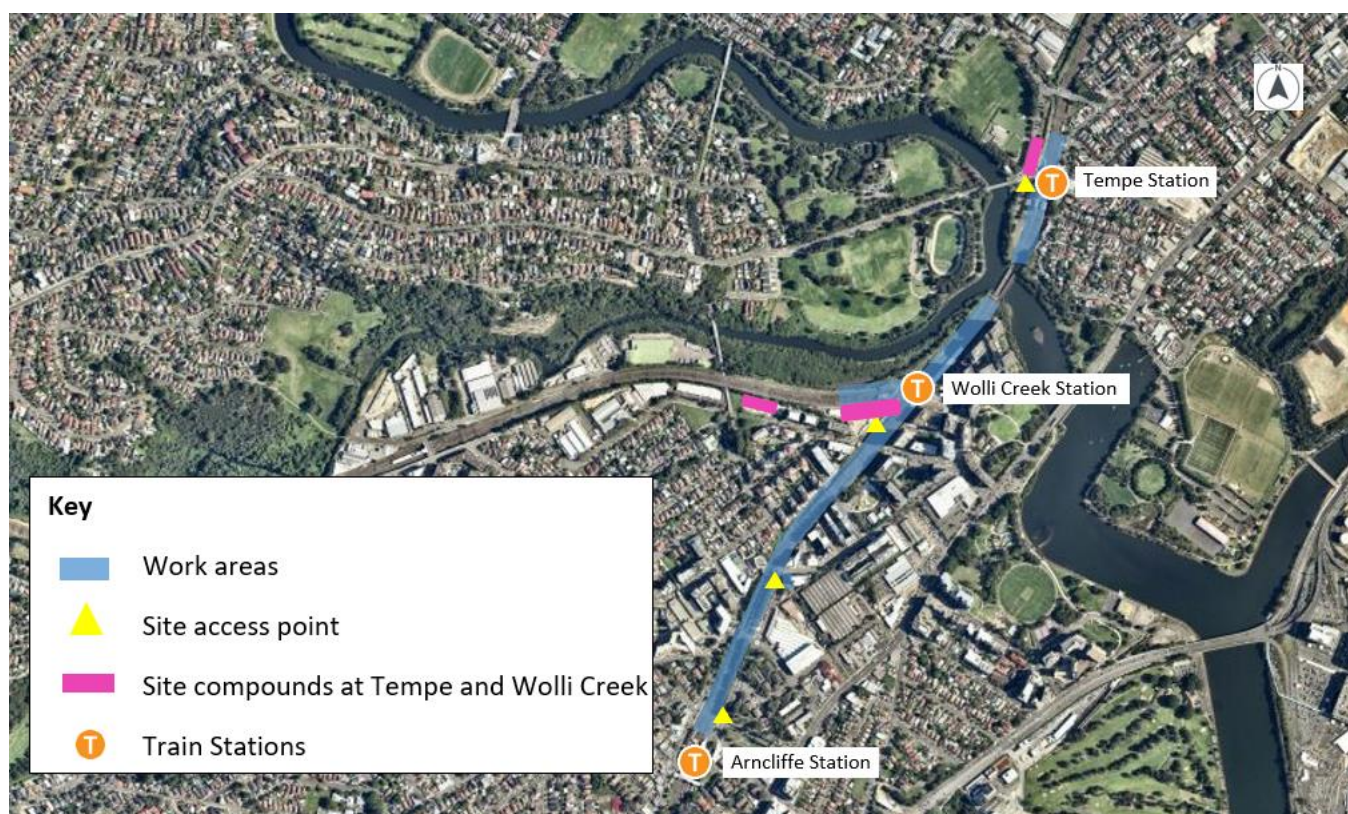

- noise from machinery and equipment, including a vacuum truck, saws, mobile cranes, and excavators
- traffic controllers and signage.

Managing our impacts

We understand construction activities may cause disruption to our closest neighbours, and every effort will be made to minimise impacts where possible, including:

- locating equipment as far away from residents and businesses as possible
- ensuring lighting towers are directed downwards and away from residents
- compliance with strict environmental conditions relating to noise
- managing dust using dust suppression methods such as mist sprayers.

Location of work area

This is our last paper notification

We are committed to reducing our paper usage and environmental impacts. We will no longer be distributing paper notifications to residents, unless requested. Instead, we will contact you via email when there is construction work that may impact you. To register for digital construction updates, please scan the QR code and fill out the form.

If you wish to continue to receive paper notifications, you can request this via the QR code or call us at **1800 684 490**.

Rain or shine, cable installation work on the Arncliffe to Tempe Signalling Upgrade project in June and July 2024.
