

# Safety improvement work complete on Australia Avenue, Underwood Road and Homebush Bay Drive on/off ramps

## Community Notification

December 2024

Transport for NSW acknowledges the Dharug people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Transport for NSW has now completed safety improvement work on Homebush Bay Drive, Australia Avenue and Underwood Road at Sydney Olympic Park and Homebush.

The work will improve motorist and pedestrian safety and traffic flow at the Homebush Bay Drive, Australia Avenue and Underwood Road roundabout and at the Homebush Bay Drive on/off ramps, especially during peak periods and special events.

This work was completed to support road safety and traffic flow at this location, in the short term, while the Homebush Bay Drive and Australia Avenue intersection upgrade project design is being finalised.

### What work have we completed?

Safety improvement works completed included:

- installation of advanced warning signage for motorists on the Homebush Bay Drive off ramps
- installation of 'roundabout operating' signs
- installation of a pedestrian fence on the western corner of the roundabout
- relocation of the pedestrian crossing on the western corner of the roundabout approximately two to three metres further north.

### Thank you

Transport for NSW thanks the community for their patience while we completed this important safety improvement work.

### Ongoing activities

You may notice our workers in the area in January 2025 carrying out minor finishing works to restore the footpath.

This work will be carried out at night and we do not expect the community to be impacted.

Pedestrian access will be maintained under the direction of traffic controllers.

### Homebush Bay Drive and Australia Avenue intersection upgrade project

The Homebush Bay Drive and Australia Avenue intersection upgrade project is currently in design planning.

We will update the community once further information is available on the project and next steps.

For further information about this project, or to subscribe to the project email distribution list, please contact us via the details overleaf.

## New advanced warning signs

1000m+ cable installed, 15m cubed of concrete and 8m cubed of asphalt used

2500 hours of work completed

12 advanced warning and roundabout operating signs installed

Work completed on schedule
