

# Bandon Road Corridor Upgrade and Extension

Additional funding announced and next steps

October 2024

Australian Government

The Australian Government has committed an additional \$75 million to the NSW Government's \$75 million to progress the planning of the new Bandon Road Corridor Upgrade and Extension project at Vineyard.

Bandon Road Corridor Upgrade and Extension connects Richmond Road, Marsden Park and Windsor Road, Vineyard. Bandon Road is part of the North West Growth Centre Road Network Strategy.

## Bandon Road Corridor Upgrade and Extension

In 2019, Transport for NSW (Transport) notified the community that Bandon Road Corridor was finalised after consultation with the community in August 2016.

Transport now has funding to progress the concept design and environmental planning, the Review of Environmental Factors (REF).

The project provides a new underpass of the rail line and an additional road connection between Richmond Road, Marsden Park and Windsor Road, Vineyard providing alternative access across the North West Growth Area and reducing traffic congestion in Riverstone.

## What's happening?

As we progress with the project, Transport will need to carry out site investigations along the Bandon Road corridor to inform the project concept design and environmental assessment. This includes the following investigations:

- survey and utility
- geotechnical digging and drilling holes to take samples of existing ground conditions
- environmental; and
- traffic survey.

There may be noisy work at times. We will make every effort to lessen the disturbance to residents and local businesses where possible.

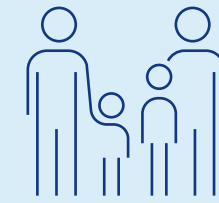

## Proposed improvements

- A new four lane divided road including a central median to allow for future widening.
- A new road underpass of the Richmond railway line at Vineyard.
- Two bridges across the flood plain.
- Flood plain storage excavation areas to compensate for embankments required for Bandon Road.
- An upgrade and realignment of the existing flood evacuation route on Wallace Road.
- Traffic lights at major intersections.
- An off-road shared path for pedestrians and cyclists.

## Project Benefits

**Better and more reliable trips**

**Catering for Sydney's growth**

**Connecting communities**

**Improved rail and road safety**

Transport will reach out to property owners requesting property access to undertake investigations. Property owners will receive a letter from Transport explaining property access agreement process.
