

Upcoming night works: Light pole installation on Garfield Road West on 4 March

Denmark Link Road

February 2024

Transport for NSW acknowledges the Dharug people as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

Denmark Link Road is a new link road between Garfield Road West, Riverstone and the Westminster Street bridge, Schofields.

Following the opening of the road connection between West Parade, Riverstone and Bridge Street, Schofields on 15 December 2023, all major works have now been completed, with only minor remedial works remaining.

What work are we doing?

We are upgrading the existing street light network and need to install cables for four light poles located on Garfield Road West between Pacer Street and Creek Street.

Work includes:

- setting up traffic control
- using a vacuum truck to remove a small amount of earth materials and expose the base of the pole
- using a life borer to install a new pole.
- Using elevating work platforms (EWP) to install cable across Garfield Road West

When and where we'll be working

We will be completing our work at night to reduce traffic disruption and any safety risks to the workers and road users **on Monday, 4 March from 7pm to 11:30pm.**

What will this mean for you?

To carry out this work, we will need to remove any items that are in the work area outside of property boundaries.

Access to residential properties will always be maintained.

Our work may be noisy at times. We will make every effort to lessen the disturbance where possible and will turn off vehicles when not in use.

Traffic changes

There will be temporary traffic changes including intermittent lane closure with alternating traffic during our work hours to ensure the work zone is safe.

Please keep to speed limits and follow signs and traffic controllers' directions.

For the latest traffic updates, call **132 701**, visit **livetraffic.com** or download the Live Traffic NSW App.
