

Doonside Station Upgrade

Community Update

Safe Accessible Transport Program

December 2024 and January 2025

Transport for NSW acknowledges the Darug people as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

The Doonside Station upgrade is being delivered as part of the Safe Accessible Transport Program, an initiative to provide a better experience for public transport passengers by delivering accessible, modern, secure, and integrated transport infrastructure across the state.

The construction of the new lifts and amenities at Doonside Station are now complete. However, some finishing work is taking place before the construction team departs.

Transport for NSW would like to thank you for your continued support and cooperation during the upgrade work.

What work we are doing

In December, our work will include:

- Minor finishing works across the station
- Cleaning the station building on Platforms 1 and 2

If we cannot complete this work in December, it will continue into January.

Our work hours are **7am until 6pm, Monday to Friday and 8am until 1pm on Saturdays.**

What this means for you

You may notice our construction workers around the station. Noise disturbance will be minimal due to the nature of the outstanding activities.

Changes to scheduled works

Work schedules are subject to change due to permits, weather, and site conditions.

Further notification will be provided should there be a change to the work program.

Managing our work

Our construction activities may be noisy at times, but we will try to lessen the noise by:

- Turning off vehicles and equipment when not needed and using quiet beeping sounds when backing up.
- Using traffic control and signage to notify pedestrians, commuters and road users of any temporary changes required to carry out our work.
