## Transport Access Program

4 March 2024

Transport for NSW acknowledges the Darug people as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

### What work are we doing?

In March and April, our work will include:

- beam installation inside the building on Platform 1/2
- roofing and ceiling work inside both platform buildings
- installing temporary fencing around our work area on Platform 3/4
- defect rectification work, and
- installation of lights and CCTV.

Our work hours are **7am until 6pm, Monday to Friday** and **8am until 1pm on Saturdays**.

### What will this mean for you?

You may notice:

- the Family Accessible Toilet on Platform 1/2 may be temporarily closed during periods to allow us to carry out our building work safely
- intermittent periods of noise and vibration from machinery and equipment
- increase in construction vehicles and workers.

### Work outside of standard construction hours

We will be working during a Sydney Trains scheduled trackwork period when no trains are running on **Saturday 16 March between 7am and 6pm** with a contingency shift on Sunday 17 March. The work involves installing a cover on the overhead wiring structure adjacent to Cross Street and will cause minimal noise disturbance.

### Changes to scheduled works

Work schedules are subject to change due to permits, weather, and site conditions. Further notification will be provided should there be a significant change to the construction program.

### Managing our work

There will be times when we'll create noise due to construction activities. But we'll try to keep it down by:

- turning off vehicles and equipment when not needed and using quiet beeping sounds when backing up
- using traffic control and signage to notify pedestrians, commuters and road users of any temporary changes required to facilitate our work.
