

# Day and night work on Elizabeth Drive from Wednesday 14 August 2024

## Community notification

August 2024

Transport for NSW acknowledges the Dharug people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Transport for NSW is working to improve Elizabeth Drive between Badgerys Creek Road, Badgerys Creek and Duff Road, Cecil Park.

### What work are we doing?

Transport for NSW will do investigation, safety and maintenance work along Elizabeth Drive between Badgerys Creek and Duff Road. These investigations will further inform the design for the Elizabeth Drive upgrade.

Our work will involve:

- land surveying
- digging and drilling holes to check ground conditions and utilities
- maintaining drainage
- collecting samples of soil for testing

We will use light vehicles, a track mounted drilling rig, vacuum truck, survey equipment, testing and scanning equipment, lighting towers and small hand tools to complete this work.

### When and where we'll be working

Work will take place along the side of Elizabeth Drive between Badgerys Creek and Duff roads. We will be onsite from **14 August to 20 December 2024**, weather permitting.

We may need to access some private properties. We will directly contact those property owners to arrange.

Our working hours will be from **8am to 6pm, Monday to Friday**. We will not work on public holidays.

There will be occasions when we may need to carry out work activities during the night.

Our night shift hours would be between **8pm and 7am** from **Sunday to Thursday**. We will work for around 75 night shifts.

### What will this mean for you?

There will be temporary traffic changes such as shoulder and lane closures and a reduced speed limit of 40km/h. Please keep to the speed limits and follow the directions of traffic control and signs.

You may also notice:

- Workers and vehicles
- Traffic controllers and signage
- Noise from machinery and equipment.

### Managing our impacts

Our work may generate some low-level noise. We will do everything we can to minimise disruption, including:

- Switching off vehicles/machinery when not in use
- Reminding workers to minimise unnecessary noise
- Directing lighting towers away from properties when working at night.

**A work location map is provided on the next page.**

## Review of Environmental Factors update

We thank the community and stakeholders for their feedback during our Review of Environmental Factors display. We are continuing to work through the feedback we received and will publish a Submissions Report on the project webpage shortly.
