

# Erskineville Station Upgrade Community Update

## Transport Access Program

February 2024

Transport for NSW acknowledges the Gadigal people of the Eora Nation as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

The Erskineville Station Upgrade is part of the Transport Access Program, a NSW Government initiative to provide a station that is accessible to people with a disability, limited mobility, parents/carers with prams and customers with luggage.

### What we've achieved

Last year, the new station lifts, footbridge and Bridge Street entrance were opened to the public for use. We thank the community for their ongoing patience while we carried out this work.

### What work will we be doing?

Day work at the station will continue in February and March **Monday to Friday from 7am until 6pm, and from 8am until 1pm on Saturdays.**

Activities include:

- Removal of site materials
- Cleaning
- Rectification and finishing work.

### What will this mean for you?

You may notice:

- Workers and vehicles
- Traffic controllers and signage
- Footpath closures
- Pedestrian and cyclist detours with traffic controllers on site to guide you
- Noise from machinery and equipment.

### Changes to scheduled works

Work schedules are subject to change due to permits, weather, and site conditions. Further notification will be provided should there be a significant change to the construction program.

### Managing our impacts

We aim to manage our work to avoid impacts to the community and the environment.

This includes:

- Reducing our noise as much as possible
- The use of noise blankets where possible, replacing reversing beepers with clickers
- Traffic control and signage will be in place
- Directional lighting pointed away from residential properties wherever possible
