

# Construction Update – First quarter 2025

## Heathcote Road Upgrade

December 2024

Australian Government

Transport for NSW acknowledges the Cabrogal people of the Darug Nation as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Work is progressing on the Heathcote Road Upgrade between Infantry Parade, Holsworthy and The Avenue, Voyager Point.

This update contains a preview of work planned for the first quarter of 2025. We will let you know specific dates for upcoming work as we confirm schedules.

### Traffic lane shifts

There will be several traffic lane shifts along the project area, moving traffic onto newly built sections of the road. Traffic lane shifts are when we transition traffic onto new sections of road we have recently built. These switches will result in changes to traffic conditions along Heathcote Road.

Partial lane closures and traffic control will be in place for the safety of workers and road users during traffic switches. These changes will happen during night work shifts.

### Williams Creek road bridges

The new eastbound road bridge across Williams Creek opened to traffic on 17 December 2024.

We will remove the existing road bridge across Williams Creek between Wednesday 8 January to Tuesday 13 January 2025, weather permitting. The work to remove the bridge will not affect the community or road users driving along the new Williams Creek road bridge.

Removing this bridge marks the beginning of construction of the new westbound road bridge,

which will be built in the same place as the existing Williams Creek bridge. The new bridge will be the same height as the new eastbound road bridge.

### Harris Creek road bridges

The new eastbound road bridge over Harris Creek will also open to traffic. After switching traffic onto the new bridge, we will begin removing the existing bridge. Once we have removed the old bridge we will begin building the new westbound road bridge across Harris Creek.

Removing the existing road bridge will not affect road users driving along the new Harris Creek road bridge.

### Harris Creek railway pedestrian bridge

As part of the project, a section of the Harris Creek Railway pedestrian bridge will be dismantled to make way for the new westbound bridge. However, certain parts of the pedestrian bridge will be preserved to honour its heritage.

The removal of the pedestrian bridge sections will not impact road traffic on the current Harris Creek road bridge.

### Night work

Our work may be noisy at times, and we will do everything we can to minimise its impact, including turning off machinery when not in use.

During night work we may use noisy machinery and equipment including:

- generators/lighting towers
- excavators, asphalt profiler and roller
- street sweepers
- concrete trucks and pumps
- powered hand tools.

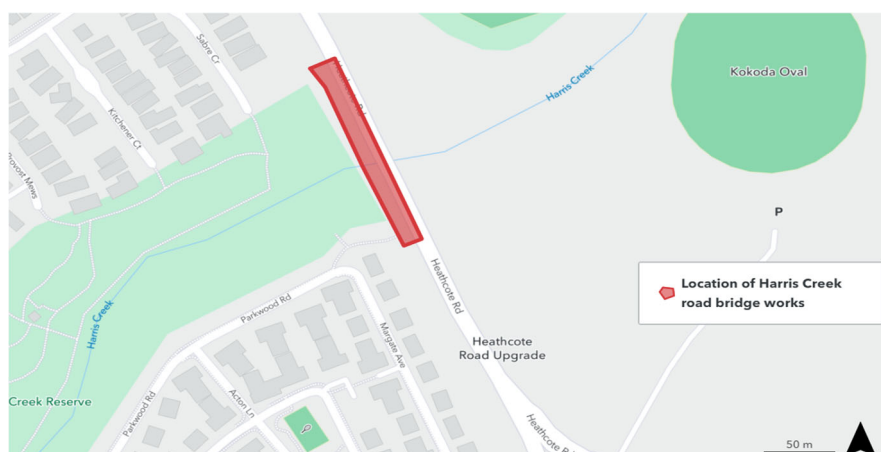

We will try and complete the noisier part of the work before midnight, However, there may be some intermittent noisy work after midnight.

## Location of work

Location of Williams Creek road bridge work

Location of Harris Creek road bridge work

Thank you to the residents that responded to our recent survey about our work. We appreciate your feedback and ongoing patience while we complete this important upgrade.

We wish the community a safe festive season and a Happy New Year.
