Jannali Platform 2 Reconstruction

From Saturday 10 February to Monday 12 February 2024

What we're doing

Platform 2 at Jannali was constructed between the 1920s and 1930s and has reached the end of its life. Sydney Trains is upgrading the platform foundation and surface while preserving the newly built station structure and utilities. This re-build will meet all relevant modern standard requirements and extend the platform by 16 metres.

This work will take five weekends to complete. The first weekend of work will take place from Saturday 10 February to Monday 12 February.

Work activities will include:

- Progressively reconstructing about one-third of Platform 2 during each weekend shutdown.
- Foundation and surface works.
- Upgrading the storm water drainage system.
- Installing a temporary surface and tactiles until the full platform length is reconstructed.

We understand this work will have an impact on you and your neighbours and appreciate your patience and understanding during these essential works.

How this affects you

Access to Platform 2

- The platform will be ready for train operation on Monday morning.
- There will be no impact on commuters when accessing the platform, however, the newly constructed area will be noticeable.
- There will be a **slight transition** from the existing surface level to the new platform.

Noise

- These works may create additional noise over the weekend.
- Work will take place **from 3am Saturday 10 February to 2am Monday 12 February.**
- Equipment may be delivered to the worksite outside the above times. Some deliveries may occur at night due to day time travel restrictions on large vehicles.
- Finishing works may take place following this period, including the removal of equipment.

Traffic and Parking

- Please note that parking will be limited at Jannali Station car park near Oxley Avenue.
- Heavy vehicles will be using local streets to access the rail corridor.
- Traffic controllers will be on duty to assist motorists and pedestrians throughout the duration of the works.
