

# Jenolan Caves Road near Hampton open to two-way traffic

## Carlos Creek slope repair Jenolan Caves Road

18 December 2024

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The NSW Government is working to repair significant damage on Jenolan Caves Road on the Carlos Creek slope near Hampton.

Lead contractor, McIlwain, has completed the essential stabilisation work at Carlos Creek.

**Jenolan Caves Road at Hampton is now open to two-way traffic.**

### What are the next steps?

Temporary asphalt has been laid to allow the road to reopen the road prior to Christmas.

After the school holidays an asphaltting crew will return to site and complete the final layer of asphalt.

Essential safety barrier will be installed in January 2025 which will require the road to be reduced to a single lane during work hours.

### When and where we'll be working

Safety barrier installation will take place from **Monday 6 January 2025, from 7am to 5pm** and is expected to take **10 shifts** to complete, weather permitting.

We have included a map to show the location of this work that will take place in January.

### What will this mean for you?

You may notice:

- noise from machinery and equipment

- traffic control and signage in place
- single lane closures and reduced speed limits.

### Traffic impacts

- During work hours, a reduced speed limit to 40 km/h will be in place. Outside of work hours, the speed limit will be 60km/h.
- Single lane closures.
- Intermittent stopping.

All road users are advised to follow the directions of signs and traffic control and slow down on approach.

For the latest traffic updates, call 132 701, or visit [livetraffic.com](https://www.livetraffic.com) or download the Live Traffic NSW App.

We understand that this work will generate some inconvenience and we thank you for your patience.

### Managing our impact

We aim to manage our work to avoid impacts to the community and the environment.

This includes:

- reducing our noise as much as possible
- turning off machinery and vehicles when not in use.
