

Lidcombe Infrastructure Upgrade

More Trains, More Services

March to May 2024

Transport for NSW acknowledges the Burramattagal people of the Darug Nation as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The More Trains, More Services program is simplifying and modernising the rail network. Passengers will be able to access more services on a simpler and more reliable network through the delivery of better infrastructure, new trains and extra services.

What work are we doing?

Between March and May 2024, work includes:

- site survey and investigation work for future planning of construction, environment and safety controls
- installation and modifications of signalling cables and underground cable routes
- track modifications
- general earthworks
- overhead wiring adjustment work
- equipment and material deliveries.

When and where we'll be working

Between March and May 2024, work will be undertaken in and adjacent to the rail corridor at Lidcombe.

Standard construction hours on this project are between **7am and 6pm Monday to Friday and 8am and 1pm on Saturdays.**

Out of hours work

Some work is required to take place outside of standard construction hours between:

- **6pm Friday 1 March and 7am Monday 4 March 2024**
- **6pm Friday 22 March and 7am Monday 25 March 2024**
- **6pm Friday 12 April and 7am Monday 15 April 2024**

What will this mean for you?

You may notice:

- workers and vehicles
- lighting from temporary lighting towers
- moderate noise from machinery and equipment.

Managing our impacts

We understand construction activities may cause disruption to our closest neighbours, and every effort will be made to minimise the impacts where possible, including:

- turning off equipment when not in use and using non-tonal reversing alarms to reduce potential noise impacts to the surrounding community
- locating equipment as far away from residents and businesses as possible
- directing lighting away from residents
- conducting on site monitoring to ensure compliance with strict environmental conditions relating to noise, vibration and dust management.

Temporary parking impacts

The spaces indicated in the image below will be temporarily reserved from **6pm Friday 1 March until 6pm Sunday 3 March**.

Traffic control and signage will be in place to assist motorists and passengers during this period.
