

Manly Cove West

Equipment delivery at night

July 2024

Transport for NSW acknowledges the Gayamaygal people of the Eora Nation on which we work and pays respect to Elders past and present.

Work has started to remove the former Sea Life building. For the safety of the community and to avoid disruptions during peak hours, some equipment and machinery will be delivered to site outside standard construction hours.

In July and August two excavators will be delivered to site at night from **4am-6am** including:

- a 20 tonne excavator on **Tuesday 30 July**
- a 30 tonne excavator on **one night** between **Monday 12 and Friday 16 August**.

The excavators will be delivered on a low loader float via West Esplanade. No demolition work will occur on these nights. This equipment will be on site until demolition work is being completed.

Traffic control will be in place to assist pedestrians and vehicles. Thank you for your cooperation while we carry out this important work.

Stay up to date
